PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed, inhaled, or absorbed through the skin. Do not breathe dust or vapours.

- * Causes eye irritation. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling and before eating or smoking. Wash all contaminated clothing with soap and hot water before reuse.
- * When handling wear goggles or face shield, rubber gloves, and a respirator approved for protection against pesticide inhalation.

* Avoid contamination of food or feed.

FIRST AID

If a known exposure occurs or is suspected, immediately start the procedures given below. If further treatment is required, contact a Poison Control Centre, a physician, or the nearest hospital.

Inform the person contacted of the type and extent of exposure, describe the victim's symptoms and follow the advice given.

NOTE: Be sure to advise the physician that the compound is a cholinesterase inhibitor and follow the physician's advice.

NOTE TO PHYSICIAN: Exposure may cause cholinesterase inhibition. Atropine by injection is antidotal. 2-PAM is also antidotal when administered early and in conjunction with atropine.

IF SWALLOWED: Call a physician or Poison Control Centre immediately. Immediately give large amounts of water and induce vomiting by gagging the victim with a finger placed on the back of the victim's tongue. Give fluids until vomitus is clear. Do not induce vomiting or give anything by mouth to an unconscious or convulsing person.

IF INHALED: Remove victim to fresh air. If not breathing, give artificial respiration, preferably mouth-to-mouth. If breathing is difficult, give oxygen, preferably with a physician's advice.

IF ON SKIN: Remove contaminated clothing and shoes and immediately wash affected areas with soap and water. Get medical attention if irritation occurs. Wash clothing before reuse.

IF IN EYES: Hold eyelids apart and flush eyes with large amounts of running water for at least 15 minutes. Call a physician immediately.

For further information see the Product Safety Information Sheet for PREFAR Technical as issued by ZENECA Inc.

EMERGENCY TELEPHONE NUMBER

All hours, 1-800-561-3636 ONLY for health and environmental information.

ENVIRONMENTAL PRECAUTIONS

Keep out of lakes, streams and ponds. Do not contaminate water by cleaning of equipment or disposal of wastes.

STORAGE

Exercise due caution to prevent damage to or leakage from the

container. Store in a warm, dry, well-ventilated area away from flammable materials, sources of heat and flame, and foodstuffs. Do not store in locations above 46°C. Some crystallization may occur at 35°C, but product normally supercools to remain liquid at much lower temperatures. Use warm water (45'-60°C) on exterior of vented drum(s) to melt any crystallized material. Do not contaminate PREFAR with water. DO NOT USE STEAM. Use jacketed or insulated equipment for bulk transfer and storage to prevent crystallization.

SPILL HANDLING

Make sure all personnel involved with spill are aware of the hazards associated with this material.

A small spill can be handled routinely considering the physical and hazardous properties of the product as well as the location of the spill.

Use adequate ventilation and wear an air-supplied respirator to prevent inhalation contact. Wear protective clothing and goggles to prevent skin and eye contact. Soak up pooled liquid as follows:

1. If PREFAR is in the liquid state spread a suitable absorbent such as clay on the liquid. If PREFAR is in the solid state: sweep up the powder, being careful not to create dust.
2. Place sweepings in an open drum.
3. Generously cover the contaminated area with a common household detergent. Using a stiff brush, work the detergent into the spill material using sufficient water to form a slurry. Brush the slurry into cracks and crevices, and allow to stand for 2 to 3 minutes. Be careful to completely avoid skin or eye contact; do not splatter one's self or bystanders.
4. Spread a suitable absorbent such as clay on the slurried liquid and shovel the absorbed material into an open drum.
5. Repeat if necessary.
6. Flush area with water, while observing proper environmental precautions.
7. Seal drum and dispose of contaminated material in accordance with municipal or provincial recommendations.

DISPOSAL

Canadian formulators of this technical should dispose of unwanted active and containers in accordance with municipal or provincial

regulations. For additional details and clean up of spills contact the regional office of Environmental Protection, Environment Canada.

NOTICE TO USER

This control product Is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE

To be used only in the manufacture of a product which is registered under the Pest Control Products Act. Read Technical Bulletin for formulation details.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
