Manufactured by:  
Hysan Corporation  
Chicago, IL 60609

Canadian Address:  
199 Steelcase Rd. W  
Markham, ON  
L3R 2M4

For Industrial, Institutional, Commercial, and Hospital Use.

A READY-TO-USE TRIPLE-ACTION PRODUCT - Highly Effective Cleaning Action: Contains very efficient solvents, detergents, builders, and other ingredients to quickly dissolve soap scum and clean away dirt, grease, body oils, and grime on hard, non-porous surfaces (counter tops, examining tables, instrument trays). Contains no abrasives; will not scratch delicate surfaces.

DIRECTIONS FOR USE: Shake container well before each use. Spray surface from about 15 to 20 cm away. Do not use on humans or animals. Do not contaminate foods/drinks/feeds. After use on food/drink/feed-contact surfaces, rinse it off thoroughly with potable water.

Clean & Deodorize: Apply an even foam coating over the surface. On moderate soil, give foam a minute to penetrate. Wipe clean with a cloth or towel. A pre-cleaning step with a scrubber may be necessary to remove gross filth.

Disinfect: Clean surface thoroughly as directed above. Apply a thin coating of foam, making sure it completely covers and thoroughly wets the area to be treated. Completed disinfection requires a contact time of 10 minutes at approximately 20°C. For mildew control, do not wipe surface, but allow it to air dry; repeat treatment if growth reappears. Otherwise, wipe surface with a clean, damp cloth, then allow it to air dry.

Instructions for Cleaning and Decontaminating Against HIV-1 on Surfaces and Objects Soiled with Blood or Bodily Fluids: This product is effective against HIV-1 (Human Immunodeficiency Virus) in the presence of organic soil (10% blood serum). Personal Protection: When handling items soiled with blood or bodily fluids, wear disposable latex gloves, gowns, masks, and eye coverings. Cleaning Procedure: Thoroughly clean blood or bodily fluids from surfaces before applying. Contact Time: Allow surface to remain wet for 10 minutes. Disposal of Infectious Materials: Blood and other bodily fluids should be disposed of according to provincial and federal regulations for infectious waste disposal.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Causes moderate eye irritation; do not get in eyes. Avoid prolonged or repeated skin contact. Remove and wash any contaminated clothing. Contents under pressure. Do not use in the presence of open flame or spark. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container or store at temperatures above 50'C. Do not store in food processing areas. Avoid contamination of food contact surfaces in the application of this product.

FIRST-AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. Avoid contact with foaming spray. Call a physician.

DISPOSAL: When container is empty, press valve to release all remaining pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the provincial regulatory agency or the Manufacturer.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
