Notification Change

Notification Change

DIRECTIONS: SHAKE CAN WELL BEFORE USING. Remove protective cap and insert "applicator wand" into spray nozzle before using.

FOR CONTROL OF CRAWLING INSECTS: Spiders, Sowbugs, Earwigs, Cockroaches, Crickets, Millipedes, Silverfish, Ants, Fleas, Carpet Beetles, Brown Dog Ticks.

This product is designed for applying into cracks, crevices, or tight areas that are difficult to reach. Spray directly into cracks & crevices, particularly under baseboards where cockroaches like to go and where the insecticide won't be mopped away. The foaming action of this formula completely fills tight crevices, leaving an insecticidally-active residue. Spray hard to reach places, behind refrigerators, washers, under sinks, between cabinets, under counters, etc.

FOR CONTROL OF WASPS, BEES, HORNETS AND YELLOW JACKETS. From a distance of 2 to 2.5 metres (6-8 feet), with the wind coming from behind, point applicator wand in direction of the insect nest. Depress nozzle, and continue spraying until the opening of the nest is completely covered with the insecticide foam. Because the insects will now be unable to leave the nest, insert the applicator wand into the nest opening and fill the nest space (or void where nest is located) with the insecticide foam. If the nest is accessible, allow sufficient time for insect to become inactive before destroying the nest. APPLICATION TO NESTS SHOULD BE MADE IN LATE EVENING OR EARLY MORNING WHEN INSECTS ARE AT REST.

LIMITATIONS: Do not use as a Hornet & Wasp Spray inside homes, or on humans or animals. Do not use as a space spray.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May cause eye or skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Provide adequate ventilation of area being treated. Avoid contact with skin, eyes and clothing. Do not inhale spray mist. Wash thoroughly with soap and warm water

after using. Do not allow children or pets to contact treated areas until surfaces are thoroughly dry. Cover or remove exposed food before use. Do not contaminate food, food containers, utensils, food preparation areas. Remove pets and cover ornamentals fish ponds before spraying. Toxic to bees, fish and wildlife. Do not contaminate any body of water. Do not contaminate animal feeding areas. Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do not store or use above 50'C as container may burst. Avoid freezing. Do not puncture or incinerate container.

FIRST AID: IF ON SKIN, wash immediately with soap and warm water. IF IN EYES, flush for 15 minutes with water. If irritation develops, consult physician. IF ACCIDENTALLY SWALLOWED obtain medical attention at once.

TOXICOLOGICAL INFORMATION: Chlorpyrifos is a cholinesterase inhibitor. Atropine sulfate is antidotal. Do not give morphine. Watch for delayed pulmonary edema in cases of serious poisoning. In this case, use oxygen therapy and treat symptomatically.

DISPOSAL: When container is empty, press button to release all pressure. Do not re-use. Do not throw into fire. Wrap in newspaper and then discard in household garbage.
