READ THE LABEL BEFORE USING

DIRECTIONS FOR USE: Sendran Insecticide Shampoo is especially formulated to provide excellent cleansing of the skin and haircoat plus rapid kill of fleas on dogs and cats.

Wet the animal's skin and haircoat thoroughly with warm water prior to the application of the shampoo. Use enough shampoo to form a lather adequate to cover the entire body. Rub the lather into the haircoat and allow it to remain in contact with the skin for a minimum of 5 minutes. Care should be taken to avoid contact of the shampoo with the animal's eyes. The treatment may be administered twice a week if necessary due to reinfestation. To help prevent reinfestation, the animal's bedding and kennel should be treated with a suitable product effective against fleas and ticks.

CAUTIONS: Harmful if swallowed, inhaled or absorbed through the skin. Do not get in eyes. Excessive or prolonged contact of the product with the skin should be avoided. Wash hands, arms and face thoroughly with soap and warm water after bathing animals. Wash contaminated clothing with soap and hot water before reuse. Do not reuse container.

Do not contaminate food, feed, water and food preparation areas.

FIRST AID: If poisoning occurs, obtain prompt medical aid.

TOXICOLOGY: Compound depresses cholinesterase. Atropine sulfate is antidotal. 2-PAM is contraindicated.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
