DIRECTIONS: Made of selected soaps that kill insects on contact. Insects must be sprayed directly to achieve proper control. Spray thoroughly both leaf surfaces and stems. For aphids and mealybugs repeat as required. For whitefly spray at 2 week intervals. For spider mites apply once weekly 2-3 times. Spray other pests upon sighting. Can be used right up to the day of harvest.

PRECAUTIONS: Concentrated soap may cause eye irritation. Avoid eye contact. Wash fruits and vegetables before using.

FIRST AID: If in eyes wash with plenty of water.
