SANITIZER FOR SPAS AND HOT TUBS

DOMESTIC
 REG. NO. 27036 P.C.P ACT
 GUARANTEE: 1-BROMO-3-
 CHLORO-5.5-DIMETHYL
 HYDANTOIN.....94%
 AVAILABLE BROMINE
 CONTENT.....61%
 AVAILABLE CHLORINE
 CONTENT.....27%

WARNING

POISON  **CORROSIVE** 

DANGER-CORROSIVE TO EYES

IRRITANT, DANGEROUS GAS FORMED WHEN MIXED WITH ACID

READ THE LABEL BEFORE USING
KEEP OUT OF REACH OF CHILDREN

Brominating Tablets

CONTROLS BACTERIA AND ALGAE IN SPA WATERS

22 ST. CLAIR AVENUE EAST
 TORONTO, ONTARIO, CANADA M4T 2S8

NET CONTENTS:

1.5 Kg

BROMINATING TABLETS

BROMINATING TABLETS Weight per tablet - 20 g

Brominating Tablets, when used as directed, are effective as a spa water sanitizer and disinfectant. **WARNING:** Direct tablet contact may cause bleaching of vinyl or synthetic spa surfaces. Automatic feeding devices employing these tablets must be totally free from traces of other spa sanitizers to avoid the probability of an explosion.

DIRECTIONS FOR USE:

1. Maintain recommended daily levels as determined by testing kit.

Free available bromine:	3.0-5.0 ppm	Total Alkalinity	100-150 ppm
pH:	7.2-7.8	Calcium Hardness:	100-200 ppm
 2. If using an automatic feeding device, fill the chamber(s) with tablets and adjust flow rate, according to the manufacturer's recommendations to maintain proper bromine residual. Adding tablets to spa's skimmer basket is an alternative bromine feed method. Daily usage should approximate 5 g of Tablets per 1,000 L of spa water. **NOTE:** Heavy spa usage, and higher temperatures may require higher usage rates to maintain proper bromine residuals. 3. Periodic superchlorination of spa water is recommended. Follow label instructions of superchlorination product being employed. **NOTE:** persistent foam formation, turbid, malodorous water are indicators of inadequate sanitizer levels. To correct such conditions, superchlorinate spa water by adding superchlorination product. Maintain circulation at least 30 minutes and wait 4 hours before using. For proper sanitation, spa must be completely drained periodically. The number of days between COMPLETE SPA DRAINAGE is equal to the volume of spa water in litres, divided by 10 times the maximum number of daily spa users. Refill spa with water and repeat DIRECTIONS FOR USE. Maximum spa water usage temperature is 40°C. Duration in spa water at 40°C should not exceed 15 minutes.
- PRECAUTIONS:** KEEP OUT OF REACH OF CHILDREN. IRRITANT. Dangerous gas formed when mixed with acid. Do not mix with any other chemical. Strong oxidizing agent. May cause fire or explosion if contaminated. Corrosive. Causes eye damage and skin burns. Skin exposure to dust may cause allergic skin reaction in some individuals. Dust may be harmful or fatal if inhaled. May be harmful or fatal if swallowed. Do not get in eyes, skin or clothing. Wear rubber gloves when handling. Do not swallow. Avoid breathing dust. Keep container closed and store in a cool, dry location. Rinse container thoroughly before discarding. Do not reuse. For information on the disposal of unused, unwanted product and cleanup of spills, contact the Provincial Regulatory Agency or the manufacturer.
- FIRST AID:** If swallowed, feed bread soaked in milk, follow by olive oil or cooking oil. Do not induce vomiting. Do not give anything by mouth to an unconscious person. Contact poison control centre or physician immediately. In case of eye contact, flush eyes with cold water for at least 15 minutes. Call a physician immediately. In case of skin contact, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation develops, seek medical attention. Take container, label or product name and pest control registration number with you when seeking medical attention.
- ENVIRONMENTAL HAZARD:** This product is toxic to fish. Do not discharge where it will drain into lakes, streams, ponds or public water.
