DIRECTIONS:

Shake well before using. Close doors and windows and other openings and remove all animals from buildings before application. Apply with a mist fogger (non-thermal) or manual pump at a rate of 200 mL per 100 cubic metres. Wear a mask or respirator and protective clothing. Apply to cracks, crevices and wall surfaces. Direct spray upwards, towards ceilings and walls or straight on insects. Keep area closed for 10-20 minutes after fogging. Ventilate thoroughly before re-entering treated areas. Repeat as necessary. Do not use in rooms where milk is processed, handled or stored. When using a mist fogger, the

equipment must be maintained and operated in accordance with the manufacturer's instruction manual.

NOTE:

Treatment should be made only before or after milking.

PRECAUTIONS:

Apply only when the dairy is not in operation. Do not use directly on food or milk. Cover all food processing surfaces, milk, utensils, and dairy processing equipment. Avoid contamination of feed and water troughs. KEEP OUT OF REACH OF CHILDREN. Thoroughly clean all food processing equipment with potable water before resuming operations. Avoid contact with skin. Do not inhale spray mist. Wash after using. Do not store near food water or litter. Keep in original container during storage. Store in a cool, well ventilated place. Do not use in areas where beekeeping equipment or supplies are being stored.

FIRST AID:

If in eyes or on skin flush with plenty of water. If irritation persists obtain medical attention. If swallowed, give one or two glasses of water and induce vomiting. Do not give anything by mouth to an unconscious person. Obtain medical attention at once.

DISPOSAL:

Destroy empty container by crushing and burying in a safe place away from water.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
