LIQUID MICROBICIDE
INDUSTRIAL
READ THE LABEL BEFORE USING

REGISTRATION NO.: 26953
PEST CONTROL PRODUCTS ACT

GUARANTEE:

Poly[oxyethylene (dimethyliminio) ethylene (dimethyliminio)-
ethylene dichloride]....20% (by weight)

NET CONTENTS: liters / kilograms

**Industrial Water Treatment
Services Ltd.
101-193 Dumoulin Street
Winnipeg, Manitoba R2H 0E4**

ENVIRONMENTAL HAZARDS: This product is toxic to fish. Keep out of lakes, streams or ponds. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

**BROAD SPECTRUM LIQUID MICROBICIDE
FOR THE CONTROL OR ALGAE, BACTERIA AND FUNGI**

**NON FOAMING
EFFECTIVE AT BOTH ACID AND
ALKALINE Ph**

DIRECTIONS FOR USE

1) Cooling Tower Systems:

Prior to use in water cooling towers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 210 to 525 mL per 10,000 liters of water should then be added to the sump of the cooling water towers. Repeat the initial dosage until control is evident. Subsequent slug additions of 60 to 525 mL per 10,000 liters of water should be added every 2 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem.

2) Industrial Air Washing Systems:

Prior to use in air washers, systems should be cleaned to remove organic, inorganic and microbiological deposits. An initial slug addition of 75 to 120 mL per 1,000 liters of water should then be added to the sump or the water collector trays. Repeat the initial dosage until control is evident. Subsequent slug additions of 55 to 120 mL per 1,000 liters of water should be added every 1 to 5 days or as needed. The frequency of addition will depend on the relative amount of bleedoff and the severity of the microbiological problem. For use only in systems equipped with effective mist eliminating components.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid contact with eyes, skin, clothing and the contamination of food. Wear safety glasses (goggles), rubber gloves and body-protective clothing. **Refer to the Material Safety Data Sheet.**

FIRST AID

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

Eye exposure: Immediately flush with plenty of water for at least 15 to 30 minutes or longer till irritation subsides. Do not remove contact lenses if worn. Get immediate medical attention.

Skin exposure: Immediately wash with plenty of soap and water. Get medical attention.

Inhalation: Remove to fresh air. If breathing is difficult, administer oxygen. If symptoms persist, call a physician.

Ingestion: DO NOT INDUCE VOMITING. Rinse mouth with copious

amounts of water or milk, first. Irrigate the esophagus and dilute stomach contents by slowly giving one (1) to two (2) glasses of water or milk. Avoid giving alcohol or alcohol related products. In cases where the individual is semi-comatose, comatose or convulsing, DO NOT GIVE FLUIDS BY MOUTH. In all cases, seek IMMEDIATE medical assistance or contact the Poison Control Centre.

TOXICOLOGICAL INFORMATION: Note to physician: Probably mucosal damage following ingestion may contraindicate gastric lavage.

DISPOSAL

1. Triple or pressure-rinse the empty container. Add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills contact the Provincial Regulatory Agency. Contact the manufacturer and the provincial regulatory agency in case of a spill and for clean-up of spills.
