A Ready to Use Solvent Based Wood Preservative for the Control of Mildew and Wood Rot on Seasoned Wood Surfaces

DOMESTIC

REGISTRATION NO. 25713

PEST CONTROL PRODUCTS ACT

GUARANTEE:

3-Iodo-2-Propynyl Butyl Carbamate.....0.5%

POST A COPY OF THIS LABEL IN THE TREATMENT AREA

NET CONTENTS:

READ THE LABEL BEFORE USING

KEEP OUT OF REACH OF CHILDREN

CAUTION POISON

PRECAUTIONS:

Causes moderate eye irritation. Avoid contact with eyes and clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash before reuse.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
6. Contact the manufacturer and provincial regulatory agency in case of a spill, and for clean-up of spills.

Do not contaminate water, food or feed by storage or disposal.

FIRST AID:

If in eyes: Flush with plenty of water. Call a physician if irritation persists.

If on skin: Wash with plenty of soap and water. Get medical attention.

If Swallowed: Immediately drink two glasses of water. Do not give anything by mouth to an unconscious person. Do not induce vomiting. If vomiting occurs, keep head lower than hips to prevent aspiration. Get medical attention immediately.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage.

DIRECTIONS FOR USE:

For exterior use only. Not for use in dwellings. This product is not recommended for use on primed or previously painted surfaces. Do not use on wood that will be in contact with food or potable water. For above ground applications only. Apply by brush, spray or roller. Do not use the preservative or treated wood in areas that will be in contact with food, feed or potable water. Do not apply when the surface or atmospheric temperature is less than 10°C. Wood surface to be treated should be dry and clean. Remove all paint, varnish, wax, or any other coating that may prevent penetration. Allow to dry thoroughly before painting or re-coating. Use as supplied – do not dilute. Do not apply to wood or any surface where prolonged skin contact may occur.

Surface preparation: All surfaces must be dry, well cured and cleaned of dust, dirt, oil wax, or any other contaminants that might affect adhesion or performance. Remove existing mildew by scrubbing with a 50% dilution of household bleach followed by water.

Wear protective glasses and rubber gloves to avoid eye and skin irritation. Make sure all surfaces are dry.

Application: Stir well before using. No thinning is required.

Seasoned Wood: Wood should be dry, unpainted, well seasoned and bark free. Cut, machine and sand wood prior to treatment if possible. If not, liberally apply two coats of preservative to all joints, cracks, cut ends, holes and other openings. If coating, apply with a brush, sprayer, or roller. For best protection, use two coats. Apply the second coat after the first coat is dry (a minimum of 12 hours). Applying paints and stains often results in splashing and dripping. Cover plants and shrubs to protect against possible injury.

Coverage: Depending upon the method of application and porosity, texture and dryness of the wood: 16-32 square meters per litre.

Equipment Cleaning: Use a solvent such as mineral spirits to remove wet wood preservative from all surfaces, brushes, sprayers, and rollers.

Reapplication: For best results and uniformity of appearance, retreat at least once in three years.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.
