OMNI WINTER TIME ALGAECIDE is used to prevent the growth of algae
in swimming pools during winter shutdown.

DIRECTIONS FOR USE

1. For pools with no visible algae, protect pool against algae
growths by adding 150 mL per 10,000 litres of water, of

Winter Time Algaecide around edges of pool.

2. For pools with visible algae present add 250 mL of Winter Time Algaecide around edges of pool. Circulate pool water for six hours before hibernization.

For Covered Pools: Apply appropriate dosage according to directions, as shown above, dependent upon whether algae is visible in the pool.

For Uncovered Pools: Apply appropriate dosage according to directions, as shown above, dependent upon whether algae is visible in the pool. Follow this throughout the winter months, with maintenance addition of 35 mL per 10,000 litres every week.

PRECAUTIONS

- Keep out of reach of children.
- Harmful if swallowed.
- Do not mix with any other chemical.
- Avoid contact with skin and eyes.
- Rinse container thoroughly before discarding. Do not reuse.
- To dispose of chemical, flush into sewer with large quantities of water.

FIRST AID - If splashed in eyes or on skin, flush thoroughly with water for 15 minutes. For eye contact, get medical attention. If swallowed, drink 2 or 3 glasses of milk or water. Call a Physician IMMEDIATELY.
