WINNIPEG TORONTO MONTREAL MONCTON

HOLDER ASSEMBLY INSTRUCTIONS INSIDE

DIRECTIONS: This package contains one resin vaporizer strip impregnated with dichlorvos insecticide, in a sealed pouch to prevent vapour loss. For use, remove the strip from the pouch and suspend with the accompanying cage and hook in an enclosed space of 28 m3. The strip gives off a virtually odourless insecticidal vapour which will provide control of flies, mosquitoes and other small flying insects for up to four months. The strip is NOT designed to repel or kill insects instantly. Allow free air movement but hang strips away from open windows

and doors where excessive ventilation may reduce efficiency. Strips should be at least 3m apart. Dispose of empty package and used strip in the garbage.

USES: For use in animal and farm buildings, milk rooms, homes, cottages, cabins, trailers, tents, attics, basements, garbage storage areas and containers, kennels, motels, restaurants, food processing plants, industrial and commercial locations, and similar enclosed spaces.

PRECAUTIONS: Harmless when used according to label directions. To avoid misuse, observe the following precautions. KEEP OUT OF REACH OF CHILDREN, and household pets. Wash hands after handling. Do not use in areas where the chronically ill may be exposed or in occupied spaces of less than 23 m³. Certain tropical fish and caged birds may be harmed by continuous exposure to vapour. Do not use in area where bee-keeping equipment and/or supplies are stored. Follow good sanitary practice by regular collection and disposal of dead insects.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
