CONTINUOUS ANT & EARWIG KILLING ACTION FOR 90 DAYS.

For use as a spot or crack and crevice treatment to control Ants, Earwigs, Cockroaches, Sowbugs, Crickets, Millipedes, Silverfish, Fleas, Carpet Beetles, Brown Dog Ticks and Spiders.

INDOOR USE: Thoroughly treat cracks, crevices, baseboards, underneath furniture and equipment, around garbage containers, localized areas (spot treatment only) of floors and floor coverings and other places where insects habitate.

OUTDOOR USE: Spray outside surfaces of screens, doors, window frames, foundations, patios, light fixtures and other places where insects may alight or congregate and enter. The product remains effective for up to 30 days on outside surfaces due to the exposure to sunlight and the elements.

DIRECTIONS: DO NOT USE AS A SPACE SPRAY. Shake well before using. Hold container approximately 30 cm from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices for insect control. Poor control is achieved on unpainted or unsealed concrete surfaces. If infestations occur, repeat applications. Do not apply to draperies, wallpaper or similar materials that may be stained. Provide adequate ventilation after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through the skin. May cause eye and skin irritation. Avoid contact with eyes, skin or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOODSTUFF, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. DO NOT CONTAMINATE FOODSTUFFS OR WATER. Do not use in any area where food may be exposed. Do not use in bulk food storage areas. CONTENTS UNDER PRESSURE. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture

or incinerate container or store at temperatures over 50 deg C. Keep from open flame or spark. Avoid freezing.

In homes or dwellings, remove or cover all exposed food and cooking surfaces before spraying. Thoroughly wash all surfaces that might contact food before reuse.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed DO NOT induce vomiting. Call physician immediately. Chlorpyrifos is a cholinesterase inhibitor. Atropine is antidotal. In case of contact with the skin, wash with soap and water. If in eyes, flush with water 15 minutes, get medical attention.

DISPOSAL: When container is empty, press valve to release all pressure. Wrap and discard in household garbage.
