READ LABEL BEFORE USING

CCL INDUSTRIES INC.  
105 GORDON BAKER ROAD  
WILLOWDALE, ONTARIO  
M2H 3P8

FOR USE AS A SPOT TREATMENT TO CONTROL INSECTS LISTED ON FRONT  
PANEL.

GENERAL INSTRUCTIONS: SHAKE WELL BEFORE USING. Hold container  
approximately 30cm from surface being sprayed and spray until  
wet. Thorough applications produce a coating which will  
vapourize into cracks and crevices for insect control. If  
reinfestation occurs, repeat applications as necessary. Provide  
adequate ventilation after indoor use. KEEP PETS AND CHILDREN  
AWAY FROM SURFACE UNTIL DRY.

INDOOR USE: Thoroughly treat spots along and behind baseboards,  
underneath furniture and equipment, around garbage containers,  
localized areas of floors and floor coverings and other places  
where insects hide or are seen.

OUTDOOR USE: Spray spots on outside surfaces of screen frames, doors, window frames, foundations, patios, light fixtures and other places where insects may alight, or congregate and enter. The cluster flies and house flies will be killed when they land on the treated surfaces.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin, or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOODSTUFFS, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. Do not use in areas where food is handled, prepared or stored. May cause skin and/or eye irritation. Product is very toxic to fish. Do not contaminate water by improper use or disposal.

FIRST AID TREATMENT: Contains volatile petroleum distillate. If swallowed, do not induce vomiting. Call physician immediately. In case of contact with the skin, wash with soap and water. If in eyes, flush with water for 15 minutes, get medical attention. If irritation persists, contact physician.

DISPOSAL: When container is empty, dispose of in household garbage.
