80 SCARSDALE ROAD, DON MILLS  
ONTARIO M3B 2R7

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. LONZA DISINFECTANT CLEANER 30-3 is formulated for this problem area. It both cleans and disinfects effectively and is virucidal when used as directed. Its hard surface disinfecting action will reduce the hazard of cross-contamination. Inhibits the growth of mold and mildew and their odors.

PRECAUTIONARY STATEMENTS:

KEEP OUT OF REACH OF CHILDREN. May cause severe eye irritation or eye damage. Causes skin irritation. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

FIRST-AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

TOXICOLOGICAL INFORMATION: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN NO. 4.

DIRECTIONS FOR USE:

LONZA DISINFECTANT CLEANER 30-3 is a proven "one-step" cleaner-disinfectant-sanitizer-fungicide-virucide-mildewcide in the presence of moderate amounts of organic soil.

Apply LONZA DISINFECTANT CLEANER 30-3 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION: To disinfect hard, non-porous surfaces, add 20 mL/L of water. Treated surfaces must remain wet for 10 minutes. At this use level, LONZA DISINFECTANT CLEANER 30-3 is also virucidal, fungicidal and mildewstatic. The broad spectrum activity of LONZA DISINFECTANT CLEANER 30-3 has been evaluated in the presence of 5% serum and found to be effective against the following organisms by the AOAC Use-Dilution test;

Pseudomonas aeruginosa	Staphylococcus aureus
Salmonella choleraesuis	Escherichia coli
Streptococcus pyogenes	Klebsiella pneumoniae
Enterobacter aerogenes	Salmonella schottmulleri
Streptococcus faecalis	Shigella dysenteriae
Brevibacterium ammoniagenes	Proteus mirabilis

AOAC Fungicidal Test: LONZA DISINFECTANT CLEANER 30-3 is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

Mildewstatic Performance: At 20 mL/L LONZA DISINFECTANT CLEANER 30-3 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance\*: At 16 mL/L use-level, LONZA DISINFECTANT CLEANER 30-3 was evaluated in the presence of 10% serum and found to be effective against the following viruses Herpes Simplex (a member of the virus family that causes infectious mononucleosis), Vaccinia (representative of the pox viruses), Adenovirus Type 5 (a causative virus in respiratory diseases), and Influenza A2 (as represented by the strains commonly called the Hong Kong Flu and the London Flu

Virus), on inanimate environmental surfaces.

SANITIZING - NON-FOOD CONTACT SURFACES (such as floors, walls, tables, etc.): At 4 mL/L use-level, LONZA DISINFECTANT CLEANER 30-3 is an effective sanitizer in waters up to 1000 ppm hardness against Staphylococcus aureus and Klebsiella pneumoniae in the presence of 5% serum on hard porous and non-porous environmental surfaces. Treated surfaces must remain wet for 60 seconds.
