EMERGENCY: (613)996-6666  
NET CONTENTS: 25 LBS.  
EACH TABLET WEIGHS 20 GRAMS

DIRECTIONS FOR USE:

RECIRCULATING COOLING WATER SYSTEMS: When used as directed, AT357 effectively control algae, bacterial, and fungal slimes in commercial and industrial cooling towers, influent water systems such as flow through filters, and lagoons; heat exchange water systems, industrial water scrubbing systems, and industrial air washing systems equipped with a mist eliminator.

DOSAGE RATES: Initial dose.

When system is noticeably fouled, add 0.25 - 0.75 kg/10,000 litres of water contained in the system. Repeat initial dosage until at least 1 mg/litre bromine residual is established for at least 4 hours. Subsequent dose, when microbial control is

evident, add 0.1 - 0.4 kg/10,000 litre of water contained in the system. Repeat as needed to maintain at least 1 mg/litre bromine residual in the water for at least 4 hours.

FIRST AID INSTRUCTIONS: If swallowed, drink one glass milk or water. Contact a physician or poison control center IMMEDIATELY. In case of skin contact, brush off excess chemical and flush skin with cold water for at least 15 minutes. If irritation develops, seek medical attention. In case of eye contact, flush eyes with cold water for at least 15 minutes. Seek medical attention promptly.

PRECAUTIONS: Causes eye and skin damage. May be fatal if swallowed. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and chemical resistant gloves when handling. Irritating to nose and throat. Avoid breathing dust. Remove and wash contaminated clothing before reuse. This product is toxic to fish. Do not discharge into lakes, streams, ponds, or public waters. Strong oxidizing agent. Mix only with water. Use clean, dry utensils and equipment. Do not add this product to any dispensing device containing remnants of any other product. Such use may cause a violent reaction leading to fire and explosion. Contamination with moisture, organic matter or other chemicals may start a chemical reaction with generation of heat, hazardous gases and possible fire and explosion. In case of contamination or decomposition, do not reseal container. If possible, isolate container in open air or well ventilated area if necessary, flood with large volumes of water.

#### NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

#### NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

#### STORAGE AND DISPOSAL:

STORAGE: Keep product dry in tightly closed container when not in use. Store in cool, dry well ventilated area away from heat, open flames, organic chemicals and sunlight. Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.
