Ratoxin Durablock

~~Rat X Dura Block~~ is a weatherproof formulation which can be used in high moisture areas indoors or outdoors. There is no bait shyness, pre-baiting is not required.

USE LIMITATIONS

Bait **MUST** either be placed in tamper-resistant bait stations or in locations not accessible to children, pets or livestock. **DO NOT** place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

Ratoxin Durablock

DIRECTIONS FOR USE: Rats: Break ~~Rat X Dura Block~~ into two sections and place in areas where Norway rat (*Rattus norvegicus*) and Roof rat (*Rattus rattus*) activity is indicated, along walls, in corners and other concealed places where they can feed unobserved. Ensure sufficient bait is placed in these areas. Ratoxin Durablock

Mice: Break ~~Rat X Dura Block~~ into small sections and place where house mice (*Mus musculus*) or signs of mice are evident. Bait stations at 3 - 4 metre intervals is recommended.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN, PETS AND LIVESTOCK.

May be harmful or fatal if swallowed or absorbed through the skin. Rubber gloves must be worn when handling product and when disposing of dead rodents, unconsumed bait and empty containers. Avoid contact with eyes, skin or clothing. Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet. Wash skin thoroughly with soap and water after handling. Wash contaminated clothing, separately from other laundry, with soap and hot water before reuse. **KEEP AWAY FROM FEED AND FOODSTUFFS.** This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds.

FIRST AID: If in eyes, flush with water for 15 minutes. If irritation persists, seek medical attention. **If on skin,** wash affected area thoroughly with soap and water. **If swallowed,** give patient one or two glasses of water and **INDUCE VOMITING** by touching back of throat with a finger or blunt object; repeat until vomit is clear. Do not induce vomiting or give anything by mouth to an unconscious person. For all cases of human ingestion, immediately notify a physician or Poison Control Centre. If pet or livestock poisoning is suspected, immediately contact a veterinarian. Take container, label or product name and Pest Control Products Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: If swallowed by humans, domestic animals or pets, this material may reduce the clotting ability of the blood and cause bleeding. Vitamin K₁ in the form of intramuscular or subcutaneous injections, or by oral ingestion are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

STORAGE:

Store in a cool, dry place away from other chemicals and food or feed. Store product not in use, in original container, in a secure location inaccessible to children and non-target animals.

DISPOSAL: Do not reuse empty container. Dispose of empty container by placing in household garbage. Dispose of dead rodents in garbage or by burying.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the Pest Control Products Act to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
