FOR OUTDOOR USE IN PROPANE OPERATED FOGGERS AND ALL TYPES OF PORTABLE THERMAL FOGGERS AND FOGGING ATTACHMENTS. P5 FOG OIL CONTAINS PROPOXUR INSECTICIDE FOR RAPID KNOCKDOWN AND KILL OF ADULT MOSQUITOES AND BLACKFLIES IN OUTDOOR AREAS.

DIRECTIONS

P5 FOG OIL is a ready to use solution. For best results apply as a dense fog when the air is calm. Fog in direction of a slight breeze allowing the fog to drift into the area of infestation. Fog while moving away from the area being treated. Apply the fog to completely envelop the area to be treated, contacting as many

insects as possible. Apply at the rate of 60 mL per 100 square metres. The best time to fog is in the early morning or late evening when adult Mosquitoes and Blackflies are active, and when rising air currents are at a minimum and there is generally little wind. Allow fog to dissipate before occupying the treated area. Mosquitoes and Blackflies that have been in contact with the fog should be controlled in 15 to 30 minutes after the fogging application. When using a propane fogger, the equipment must be operated and maintained in accordance with the manufacturer's instruction manual.

PRECAUTIONS

May be harmful if swallowed. KEEP OUT OF REACH OF CHILDREN. Avoid inhalation or skin contact. Wash thoroughly after using. Do not contaminate feed or food. Avoid contamination of animal feeding areas, such as pastures and other foraging areas. Do not contaminate water supplies, streams, lakes or ponds. Do not use as an indoor space spray. Do not apply to animals or humans. DO NOT FOG WHERE HUMANS OR ANIMALS ARE DIRECTLY DOWNWIND OF THE TREATMENT(WITHIN 100 METRES). Toxic to Bees. Do not treat plants directly.

COMBUSTIBLE: Do not fog near open flame. Do not smoke while using. Do not store near excessive heat.

FIRST AID: Danger. This product contains petroleum distillates. If swallowed, do not induce vomiting. Seek medical attention immediately. If patient is unconscious give them air. Do not give anything by mouth to an unconscious person. If on skin remove contaminated clothing and wash skin thoroughly with soap and water. If in eyes flush with water for 5-10 minutes, and obtain medical attention immediately.

TOXICOLOGICAL INFORMATION: Large doses of the active ingredient will result in cholinesterase depression. Atropine Sulfate is antidotal. Do not give Morphine. Watch for delayed pulmonary edema in cases of severe poisoning. In this case use oxygen therapy and treat symptomatically.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons and property arising from the use or handling of this product and accepts the product on that condition.

DISPOSAL: Do not reuse empty container. Dispose of container with household garbage.
