DIRECTIONS FOR USE

To be used only in the manufacture of insecticides which are registered under the Pest Control Products Act. This product is to be used with appropriate solvents and or carriers, and in the

case of pressurized products, propellents, to produce an insecticide product.

For use in the manufacture of pesticide products for use in residential and indoor non-food areas only.

Warm to room temperature. Mix well in drum before sampling and each use.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Contains petroleum distillate. Avoid breathing vapors or spray mist. Use with adequate ventilation. Wear goggles to avoid contact with eyes. Avoid contact with skin. Suitable chemically-resistant gloves and long-sleeved coveralls must be worn during handling. Wash with soap and warm water after use. Avoid contamination of food or feedstuffs. This product is toxic to fish. Do not apply directly to any body of water by cleaning of equipment or disposal of wastes. Do not use or store near heat or open flame.

FIRST AID: In case of contact: Immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. Wash contaminated clothing with warm water and soap before reuse. If swallowed: Do not induce vomiting because of aspiration pneumonia hazard. Call a physician immediately.

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Store in a cool, dry place. Keep container closed.

DISPOSAL & DECONTAMINATION: Canadian formulators should dispose of unwanted manufacturing concentrate and containers in accordance with municipal or provincial regulations. For additional details and clean up of spills contact the regional office of Conservation and Protection, Environment Canada.

NOTICE TO USER: This Control Product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
