Mississauga, Ontario L5N 6J5

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

PRODUCT LIMITATIONS:

For use ONLY in the preparations and manufacture of Industrial Wood Preservation treating solutions which are to be used only at pressure and thermal wood preservation treatment facilities. To be used only in the formulation of industrial treatment solutions at industrial treating facilities for the treatment of:

1. railway ties
2. utility poles, and piling
3. outdoor construction materials

TREATED WOOD LIMITATIONS:

Working solutions should only be used for treatment of wood having NO opportunities for:

1. direct contact with, or becoming a deleterious component of drinking water.
2. use in:
 - (a) residential construction
 - (b) food/feed storage/production or animal housing
 - (c) playground equipment
3. prolonged skin contact

DIRECTIONS FOR USE:

Post a copy of this label at the treating site, and all other areas where workers may be exposed to creosote. Ensure that all transfer of creosote occurs through closed loading systems. Apply at rates prescribed in Canadian Standards Association, .080 Standard or similar national or international standard to achieve penetration and retention levels required. Pressure treatment of wood with this product provides protection against wood decay fungi, insects and marine borers.

PRECAUTIONS:

Keep out of reach of children. Toxic if swallowed. May cause severe skin or eye irritation. Avoid contact with skin, eyes, clothing. Wear gloves impervious to creosote at all times. Do not carry, store, or consume food or drink in areas where creosote is stored or used, or where freshly treated wood is stored. Do not carry or smoke cigarettes in working area. Do not expose cuts or abrasions to creosote solutions. Get immediate first aid if eyes contact creosote solutions. Keep work area well ventilated. Keep away from open flame.

OPERATION FUNCTION	CORRESPONDING RELATIVE EXPOSURE POTENTIAL	PROTECTIVE REGIME

Operations carried on inside treatment cylinders	High	Self-contained breathing apparatus with full face piece or supplied air respirator and full face piece. Coveralls and impervious gauntlets (long sleeve gloves), impervious apron, head gear and impervious boots.
Operations carried on outside treatment cylinders that entail opportunity for direct exposure to creosote, e.g. a) transfer of creosote b) cleaning/maintenance activities c) opening cylinder after treatment d) charging thermal tanks	Medium	Half mask canister or cartridge-type respirator approved for polynuclear aromatics and organic vapours. Coveralls, chemical goggles or face shield, impervious gauntlets (long sleeve gloves), impervious apron, head gear and impervious boots.
Handling treated wood	Low	Wear a respirator if treated wood is handled in enclosed areas, or when freshly treated wood is above ambient temperature. Coveralls, impervious gloves and impervious boots.

USE PROTECTIVE CLOTHING MADE FROM THE FOLLOWING MATERIALS:

Viton, neoprene, butyl rubber, nitrile, polyvinyl chloride, polyvinyl acetate.

FIRST AID TREATMENT:

If swallowed, call a doctor. If on skin, wash immediately with soap and water. If in the eyes, flush with clear water. If irritation persists, obtain medical attention.

EYE CONTACT:

- immediately flush eyes with flowing water, occasionally lifting the upper and lower lids.
- Flush eyes for at least 15 minutes.
- Wash contaminated skin with soap or mild detergent and water.
- If irritation develops, get prompt medical attention.

SKIN CONTACT:

- Immediately remove soaked clothing or articles in contact with the skin.
- Remove from skin with greaseless hand cleaner.
- Wash contaminated skin with soap or mild detergent and water.
- If irritation develops, get prompt medical attention.

INHALATION:

- Immediately move the exposed person to fresh air.
- Apply artificial respiration if breathing has stopped.
- Keep the affected person warm and quiet.
- Get immediate medical attention.

INGESTION:

- Do not induce vomiting.
- Never cause an unconscious person to vomit.
- Get immediate medical attention.

DISPOSAL:

- Follow Provincial instructions for any required additional cleaning of the container prior to disposal or reconditioning.
- Dispose of the container in accordance with provincial requirements.
- For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office Environment Canada.
- For small spills: recover free liquid and soak up residue with solid absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA. This produce is toxic to fish. Do not contaminate water by cleaning equipment or disposal of wastes.

NOTE:

All operation procedures must be consistent with the recommendations in the Environment Canada documents: "Recommendations for the Design and Operations of Creosote Thermal treating wood preservation facilities" and "Recommendations for the Design and Operation of Creosote Pressure Treating Wood Preservation Facilities".
