Mississauga, Ontario L5N 1V9

In case of spills, poisoning or fire, telephone emergency response number
collect (416) 634-2359 (24 hours a day)

LO-DRIFT(R) is a registered trademark of Rhône-Poulenc Nederland B.V.,
authorized user Rhône-Poulenc Canada Inc.

10 LITRES

GENERAL INFORMATION:

LO-DRIFT is a water dispersible polymer which reduces the potential drift hazard associated with the spraying of herbicides. LO-DRIFT can be used with most water soluble, emulsifiable or wettable powder formulations. Droplet size and spray coverage will be affected by the amount of LO-DRIFT used, herbicide concentration, water volume, spray pressure and nozzle orientation. When tankmixed with a herbicide LO-DRIFT will control drift onto non-crop locations such as utility rights of way, drainage ditch banks, and fence rows. LO-DRIFT spray additive will reduce, but not eliminate spray drift. Always use sound application practices when spraying herbicides. Do not use LO-DRIFT on crops or grass lands used for forage or grazing. Do not use LO-DRIFT for aquatic weed control. Follow instructions on herbicide label for rates and timing.

PRECAUTIONS:

Read the label carefully and follow both the LO-DRIFT directions and the herbicide manufacturer's instructions.

AVOID CONTACT WITH SKIN, EYES OR CLOTHING.

KEEP OUT OF REACH OF CHILDREN.

WEAR PROTECTIVE GLOVES when handling concentrate.

WASH CONCENTRATE from skin and eyes immediately. Wash hands and exposed skin before meals and after work.

AVOID ALL CONTACT BY MOUTH.

KEEP AWAY FROM FOOD, DRINK AND ANIMAL FEEDSTUFFS.

DO NOT contaminate ponds, waterways and ditches with chemicals or used containers.

Can be slippery if spilt. Absorb by sprinkling with absorbent (eg. sand or soil). Afterwards, flush area copiously with detergent and water.

FIRST AID:

If swallowed: Do NOT induce vomiting. Call a physician immediately or rush patient to nearest hospital taking this labelled container with you.

In case of skin contact: Wash skin thoroughly with soap and water. If in eyes, flush with plenty of water for 15 minutes. If irritation persists, get medical attention.

TOXICOLOGICAL INFORMATION:

If swallowed, gastric distress or nausea may occur. Contains aromatic hydrocarbon.

STORAGE:

LO-DRIFT should be stored in a cool dry place. Keep in original container, tightly closed, in a safe place. If stored below 0'C warm gently until the contents re-liquefy.

DISPOSAL:

1. Rinse the emptied container thoroughly as described previously under mixing instructions.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

NOTICE TO USER: This control product is to be used only in accordance with the Directions on this label. It is an offence under the PEST CONTROL PRODUCTS ACT to use a control product under unsafe conditions.

10 LITRES

GENERAL INFORMATION:

LO-DRIFT is a water dispersible polymer which reduces the potential drift hazard associated with the spraying of herbicides. LO-DRIFT can be used with most water soluble, emulsifiable or wettable powder formulations. Droplet size and spray coverage will be affected by the amount of LO-DRIFT used, herbicide concentration, water volume, spray pressure and nozzle orientation. When tank-mixed with a herbicide LO-DRIFT will control drift onto non-crop locations such as utility rights of way, drainage ditch banks, and fence rows. LO-DRIFT spray additive will reduce, but not eliminate spray drift. Always use sound application practices when spraying herbicides. Do not use LO-DRIFT on crops or grass lands used for forage or grazing. Do not use LO-DRIFT for aquatic weed control. Follow instructions on herbicide label for rates and timing.

DIRECTIONS FOR USE

MIXING:

1. Shake or roll the container thoroughly before use.
2. ALWAYS add LO-DRIFT to water. NEVER add water to LO-DRIFT or to the LO-DRIFT container.
3. Half-fill spray tank with water, add herbicide and agitate. Wettable powders should always be pre-mixed in a small quantity of water before adding to the water in the spray tank. Liquids (including emulsions) must be fully dispersed before adding LO-DRIFT.
4. Add LO-DRIFT slowly in a "pencil thin stream" to the spray solution while under vigorous agitation. Remove the filter basket beforehand.
5. Fill tank with water. Wetting agent, if needed, should be added last of all. After mixing is complete, continue agitation for 2 to 3 minutes before using.
6. Carry out the spraying strictly in accordance with the herbicide manufacturers' directions.
7. To wash concentrated LO-DRIFT out of measuring vessels, etc. first rinse with a petroleum solvent or diesel oil. Then wash thoroughly with a detergent water solution. To clean the spray tank and pipelines after use, a detergent water solution should be sufficient. Dispose of rinsings in accordance with provincial requirements.

RATES OF USE:

GROUND APPLICATIONS

SPRAY PRESSURE	SPRAY HEIGHT	NOZZLE TYPE	LO-DRIFT DOSAGE
Up to 200 kPa	45-60 cm	Flat Fan, Flooding and Off Centre	150-300 L/1000 L of spray solution
200-350 kPa	45-60 cm	Flat Fan, Flooding and off Centre	240-300 L/1000 L of spray solution
150-350 kPa	45-60 cm	Cone or Raindrop	90-210 mL/1000 L of spray solution
200-275 kPa	1.5 m max	Peacock	1.8-3.0 L/1000 L of spray solution
200 kPa	45-60 cm	Directa-spra Radiarc	300-600 mL/1000 L of spray solution
350-700 kPa		hand gun	0.6-3.0 L/1000 L of spray solution

AERIAL APPLICATIONS

SPRAY PRESSURE	NOZZLE ORIENTATION	LO-DRIFT DOSAGE
Up to 300 kPa of spray solution	Straight back	300-450 mL/1000 L
Up to 300 kPa	45' Angle Back	450-600 mL/1000 L of spray solution

PRECAUTIONS:

Read the label carefully and follow both the LO-DRIFT directions and the herbicide manufacturer's instructions.
