DOMESTIC

Net Contents 550 mL

Concentrate

Safer Ltd.,
Scarborough, Ont. M1B 2K4

DIRECTIONS FOR USE: Apply Safer's Insecticidal Soap Hose-End Spray using the hose-end applicator provided (attached). Applicator will accurately dilute this concentrated insecticide for treatment of vegetables, flowers, fruits, shrubs, trees.

1. Read the complete label for application instructions and precautions.
2. Connect spray applicator provided to garden hose.
3. Remove bottle cap and attach bottle to applicator.
4. Turn ON/OFF switch on top of applicator to OFF position (sideways).
5. Turn on water on tap.
6. When ready to spray, point sprayer towards target and turn ON/OFF switch to centre ON position.

7. When spraying is complete, turn ON/OFF switch to OFF position, then turn water off. Disconnect applicator from water hose.

CAUTION: Rate of delivery of product will vary depending on water pressure, location, time of day, length and diameter of hose, etc. Complete contents of container (550 mL) can be sprayed in approximately 2-4 minutes.

APPLICATION: For control of aphids, mealybugs, spider mites, rose and pear slugs, whitefly and earwigs. Made of selected soaps that have contact insecticidal properties. Insects must be sprayed directly to achieve proper control. Spray to wet ensuring thorough coverage of all plant surfaces. For aphids, mealybugs, spider mites and whitefly: apply weekly for 2-3 weeks and thereafter repeat as required. For other insects, apply when they first appear and repeat as needed.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Concentrated soap may cause eye irritation. Do not use on sweet peas, nasturtiums, delicate ferns. If in doubt about a sensitive species spray a small test patch before treating entire plant. Can be used up to and including the day of harvest. Wash fruits and vegetables before using.

DISPOSAL: Do not reuse empty container or applicator. Dispose of applicator and empty container in household garbage.

FIRST AID: If in eyes wash with plenty of water. If concentrate on skin, rinse with water. If ingested, give demulcent (milk) and consult a physician.

The active ingredients in this pesticide are specially selected soaps. No other pesticides are added.

Code: 5110
