NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

DIRECTIONS FOR USE

COOLING TOWER SYSTEMS

This product is used to control algae, bacteria, and fungi in recirculating commercial and industrial water cooling towers.

KEMTREET 890 is a broad spectrum liquid microbicide, that will not cause foam.

Prior to the use of KEMTREET 890 in water cooling towers, systems should be cleaned to remove algae growth, microbiological slime, and other deposits. Then make an initial slug addition of 250 to 500 mLs per 10,000 litres of water in the system, repeat initial dosage until control is evident. Make subsequent slug addition of 100 to 500 mLs per 10,000 litres of water every 1 to 3 days or as needed. The frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem. Slug additions should be made in the sump of water cooling towers.

PRECAUTION  
KEEP OUT OF REACH OF CHILDREN

DANGER CAUSES BURNS. MAY BE FATAL IF SWALLOWED.  
HARMFUL IF ABSORBED THROUGH SKIN.

PRECAUTIONS:

Avoid skin or eye contact. Avoid breathing vapour. Wear protective equipment during handling. Keep away from acids and incompatibles. Do not take internally.

FIRST AID:

If inhaled, remove victim to fresh air. If breathing stopped, begin artificial respiration. Call physician. For eye contact, flush with running water for at least 15 minutes, call physician. For skin contact, wash with soap and water while removing contaminated clothing. Call physician if irritation persists. If ingested, do not induce vomiting. Guard against aspiration into lungs. Obtain medical attention immediately.

ATTENTION THIS CONTAINER IS HAZARDOUS WHEN EMPTIED.

ALL LABELLED HAZARD PRECAUTIONS MUST BE OBSERVED.

ENVIRONMENTAL HAZARDS:

This product is toxic to fish. Keep out of lakes, stream, or ponds. Do not contaminate water, food, or feed by storage or disposal. Do not reuse empty container.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted

product and the cleanup of spills, contact the regional office of Conservation and Protection Service, Environment Canada.

5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.
