CANADIAN TIRE CORPORATION, LIMITED TORONTO, CANADA M4P 2V8

Armor Coat Wood Preservative and Sealer is a clear penetrating ready-to-use sealer. It extends the life of wood, not in ground contact, and protects the wood from moisture and water. It penetrates and seals the surface in preparation for the final finishing coat of paint, varnish or urethane. It also protects against grain raising and darkening or bleaching of wood surfaces and resists acids, alkalies and salt sprays.

DUST FREE in 1/2 hour; HARD DRY in up to 2 hours.

DIRECTIONS:

For exterior use only. Not for use inside dwellings. For above ground use only. Apply by brush only. Do not spray or dip. Wood surface to be treated should be dry and clean. Remove all paint, varnish or any other coating that may prevent penetration. Allow to dry thoroughly before painting or re-coating. Use as

supplied - do not dilute. Do not apply to wood or fabric or any surface where prolonged skin contact may occur, or on any surface which may come into contact with food, feed or drinking water. Clean equipment (brushes, trays, etc.) with mineral spirits, then with detergent and water. Harmful to plant life when wet. Allow to dry thoroughly before permitting contact. One coat is usually sufficient. On extremely porous surfaces two coats may be necessary.

PRECAUTIONS:

Keep out of reach of children. Flammable. Do not use or store near an open flame or spark. Avoid breathing vapours. Harmful if swallowed or inhaled. Wear rubber or plastic gloves and appropriate covering clothing when applying this product. Wash thoroughly after use with soap and water before eating or smoking. Keep container closed when not in use. May cause skin irritation. Avoid skin contact. Do not contaminate bodies of water. This product is toxic to fish.

FIRST AID:

If swallowed do not induce vomiting. Call physician immediately. If splashed eyes, flush with clean water for 15 minutes and contact a physician. In case of skin contact, remove the product from the skin promptly by washing with vegetable oil or hand degreaser and then use soap and water.

TOXICOLOGY:

Contains PETROLEUM DISTILLATE and ZINC NAPHTHENATE. Treat as for ingestion of kerosene.

DISPOSAL AND STORAGE:

Do not reuse empty container. Dispose of empty container in household trash. Store unused product out of reach of children and animals. Do not store in areas subject to excessive heat.
