Cross-contamination is of major housekeeping concern in schools, institutions, and industry. NPC General Purpose Disinfectant has been formulated to aid in the reduction of cross-contamination in these areas.

NPC General Purpose Disinfectant is a one-step disinfectant-cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and will prevent the growth of mold and mildew and their odors when used as directed.

NPC General Purpose Disinfectant is an effective one-step sanitizer-cleaner for use on non-food contact surfaces. When used as directed, NPC General Purpose Disinfectant will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause malodors.

PRECAUTIONARY STATEMENTS:

KEEP OUT OF REACH OF CHILDREN Danger - Corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

First Aid: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

Toxicological Information: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Notice to User: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

Disposal:

1. Rinse the emptied container thoroughly and add the rinsings to the treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.

4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.

Directions: NCP General Purpose Disinfectant is a proven "onestep" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply NCP General Purpose Disinfectant to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required.

Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection: At 16 mL/L of water, NCP General Purpose Disinfectant will disinfect hard non-porous surfaces in school, industry and non-medical institutions. Treated surfaces must remain wet for 10 minutes.

Sanitizing: To sanitize non-porous, non-food contact surfaces, add 3.0 mL/L of water. Treated surfaces must remain wet for 60 seconds.

16 mL/L Use-Level: The broad spectrum activity of NCP General Purpose Disinfectant has been evaluated and found to be effective against the following organisms by the AOAC Use Dilution test:

Pseudomonas aeruginosa
Staphylococcus aureus
Salmonella choleraesuis
Escherichia coli
Streptococcus pyogenes
Klebsiella pneumoniae
Enterobacter aerogenes
Serratia marcescens
Streptococcus faecalis
Shigella dysenteriae
Brevibacterium ammoniagenes
Salmonella typhi

Mold and Mildew Control: at 10 mL/L NCP General Purpose Disinfectant will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard,

non-porous surfaces (as indicated in general cleaning instructions above). Allow to dry on surface and repeat when mildew growth returns.
