DIRECTIONS FOR USE: Wyant's W-333P Liquid Pine Disinfectant is a heavy duty disinfectant-cleaner for hospital, industrial and institutional use. It is based on steamed distilled pine oil combined with orthobenzyl-para chlorophenol and selected water

solvents. To disinfect bathrooms, shower stalls, stables, garbage receptacles, etc., dilute 20 mL/L of warm water. Allow 10 minutes contact time. rinse well after use. Meets the requirements of the AOAC xii Use-Dilution test at a dilution of 20 mL/L against salmonella choleraesuis ATCC No. 10708, salmonella typhosa ATCC No. 6539, and staphylococcus aureus ATCC No. 6538.

PRECAUTIONS: DANGER-Corrosive to eyes and skin.

FIRST AID: In case of contact flush with plenty of water. If irritation persists call a physician. An aspirator hazard exists in the accidental oral ingestion of this product because of pine oil content. NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the pest control products act to use a control product under unsafe conditions.
