CANTOL

SEELECT A-M 64

DISINFECTANT-CLEANER  
SANITIZER-FUNGICIDE  
MILDEWSTAT-VIRUCIDE\*  
DEODORIZER

for Hospitals, Institutional and Industrial Use

Effective in hard water up to 400 ppm hardness (calculated as  $\text{CaCO}_3$ ) in the presence of 5% serum contamination.

GUARANTEE:

Alkyl (40% $\text{C}_{12}$ , 50% $\text{C}_{14}$ , 10% $\text{C}_{16}$ ) dimethyl benzyl ammonium chloride	2.200%
Octyl decyl dimethyl ammonium chloride	1.650%
Dioctyl dimethyl ammonium chloride	0.660%
Didecyl dimethyl ammonium chloride	0.990%

Cross-contamination is of major housekeeping concern not only in hospitals, but in schools, institutions, and industry. CANTOL SEELECT A-M 64 has been formulated to aid in the reduction of cross-contamination in these areas.

CANTOL SEELECT A-M 64 is a one-step disinfectant-cleaner that is effective against a broad spectrum of bacteria, is virucidal, fungicidal and will prevent the growth of mold and mildew and their odors when used as directed.

CANTOL SEELECT A-M 64 is an effective one-step sanitizer-cleaner for use on non-food contact surfaces.

When used as directed, CANTOL SEELECT A-M 64 will deodorize surfaces in toilet areas, behind and under sinks and counters, garbage cans and garbage storage areas and other places where bacterial growth can cause malodors.

**PRECAUTIONARY STATEMENTS:**

KEEP OUT OF REACH OF CHILDREN.

Danger - Corrosive to eyes. Do not get in eyes, on skin or on clothing. Harmful if swallowed. Avoid contamination of food.

**FIRST-AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**TOXICOLOGICAL INFORMATION:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

**NOTICE TO USER:**

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

**DISPOSAL:** 1. Rinse the emptied container thoroughly and add the rinsings to treatment site. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning. 3.

Dispose of the container in accordance with provincial requirements. 4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Environment Canada. 5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN NO. 4.

DIRECTIONS FOR USE:

CANTOL SEELECT A-M 64 is a proven "one-step" disinfectant-cleaner-sanitizer-fungicide-mildewstat-virucide which is effective in water up to 400 ppm hardness in the presence of 5% serum contamination.

Apply CANTOL SEELECT A-M 64 to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain, and bedframes with a cloth mop so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

DISINFECTION: To disinfect hard, non-porous surfaces in hospitals, add 16mL/L of water. Treated surfaces must remain wet for 10 minutes. At this use level. CANTOL SEELECT A-M 64 is also virucidal and fungicidal and fungistatic. At 16 mL/l of water, CANTOL SEELECT A-M 64 will disinfect hard non-porous surfaces in school, industry and non-medical institutions.

SANITIZING: To sanitize non-porous, non-food contact surfaces, add 3.0 mL/L of water. Treated surfaces must remain wet for 60 seconds.

16 mL/L Use-Level: The broad spectrum activity of CANTOL SEELECT A-M 64 has been evaluated and found to be effective against the following organisms by the AOAC Use-Dilution test:

Pseudomonas aeruginosa	Staphylococcus aureus
Salmonella choleraesuis	Escherichia coli
Streptococcus pyogenes	Klebsiella pneumoniae
Enterobacter aerogenes	Serratia marcescens
Streptococcus faecalis	Shigella dysenteriae
Brevibacterium ammoniagenes	Salmonella typhi

FOR SCHOOLS, INDUSTRY AND NON-MEDICAL INSTITUTION USE: At 16 mL/L of water, CANTOL SEELECT A-M 64 delivers excellent cleaning and germicidal effectiveness. It is effective

against Staphylococcus aureus, Salmonella choleraesuis, Escherchia coli and Serratia marcescens. The same AOAC tests used to confirm performance for hospitals were used.

AOAC Fungicidal Test: CANTOL SEELECT A-M 64 is an effective fungicide against Trichophyton mentagrophytes (the athlete's foot fungus) when used on surfaces in areas such as locker rooms, dressing rooms, shower and bath areas, exercise facilities, etc.

Mold and Mildew Control: at 10mL/L CANTOL SEELECT A-M 64 will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general cleaning instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance\*: at 10 mL/L use-level, CANTOL SEELECT A-M 64 was evaluated and found to be effective against the Influenza A/Brazil Virus on inanimate environmental surfaces.

Sanitizing: Non-Food Contact Surfaces (such as floors, walls, tables, etc.): at 3.0 mL/L use-level, CANTOL SEELECT A-M 64 is an effective sanitizer against Staphylococcus aureus and Klebsiella pneumoniae on hard non-porous environmental surfaces.
