* Spray test: electrodes 27.5 cm (11") apart, no arcing up to 35,000 volts

* Cup Test: Electrodes .25 cm (1/10") apart; average breakdown voltage 21,500 volts

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS FOR USE:

Remove protective cap. Point nozzle toward nest, crevice, or hole where infestation or insects are known to be inside. For indoor use, spray from 30-45 cm (12-18 inches) away from nest, crevice, or hole. For outdoor use, wasp killer can be used 6m (20 feet) away. Press valve all the way down and spray. This treated surface will have a residual killing action and prevent reinfestation for weeks. In the event the insecticide film becomes ineffective due to rain or other causes, repeat treatment. Application should be made in the late evening when insects are at nest. Hold can upright. Point valve opening away from face. With wind at back, aim at nest. Thoroughly saturate nest with spray, contacting as many insects as possible. То prevent insects from falling on skin and clothing, do not stand directly under the nest. Do not spray vegetation. Ιf reinfestation occurs, repeat treatment. Do not use as a space spray. When using indoors avoid wetting asphalt tile, rubber and plastic material. STORAGE: Store in a cool, dry area away from heat or open flame. DISPOSAL: Do not reuse empty container. Wrap container and put in household garbage.

PRECAUTIONS:

CONTENTS UNDER PRESSURE. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperature above 50'C may cause bursting. May be harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing of spray mist and provide adequate ventilation of area being treated. Contact with skin, eyes, or clothing should be avoided. Wash thoroughly with soap and warm water after handling. If poisoning occurs, get prompt medical attention. Avoid contamination of food, utensils, food preparation areas. Do not use in commercial food preparation areas or in edible product areas of food processing plants. Avoid contamination of fish ponds. Remove pets from area before spraying.

KEEP OUT OF REACH OF CHILDREN

FIRST AID:

IF SWALLOWED: Call physician or poison control center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person. IF INHALED: Remove from contaminated atmosphere. Give artificial respiration and oxygen if necessary. IF ON SKIN: Wash with soap and water. IF ON EYES: Wash with plenty of water. Get medical attention if irritation persists.

DISPOSAL:

When container is empty, press valve to release all pressure. Dispose of empty container in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection, Environment Canada.
