4 LITRE                      20 LITRE                      205 LITRE DRUM

FOR INDUSTRIAL, INSTITUTIONAL AND HOSPITAL USE

DIRECTIONS:

DISINFECTION - To disinfect walls, floors and other hard surfaces, mop or brush with a solution containing 16 mL per litre of water. Allow solution to wet all surfaces thoroughly and remain wet for 10 minutes. For heavily soiled surfaces, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use. When disinfecting surfaces coming in direct contact with food, rinse thoroughly with potable water.

To disinfect locker rooms, shower stalls, walkways and areas around pools, mop areas with a solution containing 16 mL per litre of water. At this level this product is fungicidal against the pathogenic fungi *Trichophyton mentagrophytes*. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZING - To sanitize pre-cleaned, rinsed, non-porous food contact surfaces, prepare a 200 ppm active QUAT solution by adding 4.5 mL to a litre of water. Allow solution to contact surface for at least 60 seconds. Let air dry. Prepare a fresh solution for each use.

HOSPITAL DISINFECTION - To disinfect walls, floors, furniture and other hard surfaces in hospitals and nursing homes, mop or brush surfaces with a solution containing 16 mL per litre of water. Allow solution to wet surfaces thoroughly and remain wet for 10 minutes. For heavily soiled surfaces a pre-cleaning step is required and recommended.

At this dilution this product is an effective disinfectant against *Pseudomonas aeruginosa*, *Staphylococcus aureus*, *Escherichia coli* and *Salmonella choleraesuis*. At this dilution this product also exhibits effective virucidal activity against Influenza A-2 Asian, Adeno virus type 5, Herpes Simplex and Vaccinia virus.

Efficacy tests have demonstrated that this product is an effective bactericide, fungicide and virucide in the presence of organic soil (5% blood serum).

Kemsol K-20 Lemon is an effective sanitizer when diluted with water up to 250 ppm hardness (CaCO<sub>3</sub>).

#### FOR INDUSTRIAL USE ONLY

#### PRECAUTION:

Keep out of reach of children. Causes eye and skin damage. Do not get in eyes, on skin or clothing. Harmful if swallowed. Wear goggles or face shield and rubber gloves when handling. Avoid contamination of food.

#### FIRST AID INSTRUCTIONS:

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, contact a physician.

Remove and wash all contaminated clothing before re-use. If swallowed, drink milk, egg whites, gelatin solution or if none of these are available, drink large quantities of water. Call a physician immediately.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

DISPOSAL:

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of the Environmental Protection Service, Environment Canada.
5. For small spills, recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN.

READ MSD SHEET BEFORE USE
