HAGEN (R)

HAGEN FLEA & TICK COLLAR FOR LARGE DOGS

DIRECTIONS: Buckle collar around dog's neck. Allow a spacing of 2 fingers between collar and neck to prevent irritation, and cut off any excess length. When collar is first placed on dog, adult ticks will be killed over entire body in a few days and will fall or may then be easily removed. Ticks appear on dogs in three stages. In the first two stages, ticks are smaller than a match head and are difficult to see. The collar will also control these immature stages. If ticks are a problem, this collar should be worn constantly. KILLS FLEAS AND TICKS FOR A PERIOD OF UP TO 4 MONTHS. FOR CONTINUOUS PROTECTION, REPLACE COLLAR WHEN EFFECTIVENESS DIMINISHES.

Fleas - This collar is also highly effective in killing fleas. As long as your dog is wearing a Hagen Flea & Tick Collar, do not use a separate flea collar. Remove collar while dog is being bathed.

PRECAUTION: Do not open protective pouch until ready to use. Do not allow children to handle this collar. Dust will form on this collar during storage. Do not get dust or collar in mouth, harmful if swallowed. Do not get dust in eyes. Wash hands thoroughly with soap and water after handling. Do not use on dogs younger than 3 months old. When collar is first worn, observe neck area every few days for irritation. Remove collar at first sign of irritation or adverse reaction. Collar is intended for use as an insecticide generator, and not to be taken internally by man or animals. Do not use on sick or convalescing dogs. Do not use other pesticides on dog or administer other cholinesterase inhibitors (eg. oral parasiticides), while collar is worn or for a few days after removing collar. Dispose of any excess collar, packaging and expired collars with garbage to keep out of reach of children.
