Contains 12 bait stations NET WEIGHT 18g

The Clorox Company of Canada Ltd. 5700 Yonge St. Toronto,
Ontario M2M 4K2

COMBAT Roach Killing System

Easy to use
Nothing to Activate
Odourless in application

How COMBAT works:

Roaches enter bait station and eat the bait.
Roaches take the bait back to the nest.
Roaches share the bait, killing other roaches and destroying
the nest.

DIRECTIONS FOR USE:

1. Use all 12 bait stations. Separate bait stations from
frame. Use 12 bait stations per 20 m² (200 ft²) of surface
area to be treated. Include shelf surfaces when calculating
surface area. Do not remove or puncture labels on bait
stations. Peel off square backing to expose adhesive strip.

Place bait stations wherever you have seen roaches. Then place additional bait stations approx. 0.5 metres away. Put remaining bait stations in likely roach hiding places, see diagrams for suggested areas.

Diagrams inserted here

2. Place bait stations properly so that they are touching walls or corners. Do not use insecticidal sprays around bait stations.

3. Replace all bait stations every 3 months or sooner if infestation is heavy.

PRECAUTIONS:

KEEP OUT OF REACH OF CHILDREN. PLACE BAIT STATIONS IN AREAS NOT ACCESSIBLE TO CHILDREN AND PETS.

Avoid contamination of food and feed. Do not place directly over food, utensils, dishes or food preparation surfaces. Do not remove bait from stations. May be harmful if swallowed.

FIRST AID INSTRUCTIONS: If bait station content is swallowed: Drink one or two glasses of water and induce vomiting by touching back of throat with a blunt object. Do not induce vomiting or give anything by mouth to an unconscious person. Call a physician a poison control centre. Take container, label or product name and Pest Control Product Registration Number with you, when seeking medical attention.

DISPOSAL: Do not contaminate water through improper disposal. Discard used containers in garbage.
