EDMONTON, ALBERTA
T5M 2X2

DIRECTIONS

FOR CLEANING: For lightly soiled areas, surfaces to be cleaned should be mopped or wiped with a solution containing 8 mL of SAFEGUARD per litre of water. Rinse with fresh water. For heavy soiled areas, mop or wipe soiled surface with a solution containing 20 mL of SAFEGUARD per litre of water. Rinse with fresh water.

GENERAL PURPOSE DISINFECTION: To disinfect walls, floors and other hard surfaces in schools, restaurants, restrooms and other public areas, mop or brush surface to be cleaned with a solution containing 8 mL SAFEGUARD per litre of water. Surfaces which are heavily soiled should be cleaned first before disinfection. Those surfaces which may later come in contact with food must be rinsed thoroughly with clean water of drinking quality. To kill pathogenic fungi in locker rooms, shower stalls, walkways around pools and other areas, mop with a solution containing 6 mL

SAFEGUARD per litre of water. This solution will destroy Trichophyton Interdigitale a causitive agent of athletes foot.

HOSPITAL DISINFECTION: To disinfect walls, floors furniture and other hard surfaces in hospitals or nursing homes, mop or brush surface to be treated with a solution containing 16 mL SAFEGUARD per litre of water. Those surfaces that are heavily soiled with blood, fecal matter or exudate should be thoroughly scrubbed with this solution and then rinsed with a fresh solution of the same strength.

SANITIZATION: To sanitize walls, floors and equipment in food processing plants, first clean thoroughly with a solution containing 6 mL SAFEGUARD per litre of water. If surface is heavily soiled use 20 mL per litre to insure thorough cleaning. Sanitize cleaned surface with rinse solution containing 4 mL per litre of water. Food contact surfaces must be rinsed with potable water before reuse.

DEODORIZATION: To deodorize surface during cleaning, mop or brush surfaces with a solution containing 16 mL SAFEGUARD per litre of water for an effective antibacterial cleaner designed for use in industrial and institutional cleaning. It may be relied upon to deodorize bathrooms garbage pails and other areas where odors may develop.

DANGER: Corrosive to eyes.

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Causes eye damage and skin irritation. Protect eyes and skin with proper protective equipment when handling. Harmful if swallowed. Avoid contamination of food. Do not get in eyes, on skin or on clothing.

FIRST AID

INHALATION: Get fresh air. Call physician if effects persist.

EYE CONTACT: Flush with plenty of water for a minimum of 30 minutes. Get immediate medical attention.

SKIN CONTACT: Flush with plenty of water for a minimum of 15 minutes. Remove and wash contaminated clothing before reuse. Get medical attention if effects persist.

INGESTION: Do not induce vomiting. Give plenty of milk, egg whites, gelatin solution or water only if victim is conscious. Get immediate medical attention.

TOXICOLOGICAL INFORMATION:

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a controlled product under unsafe conditions.

DISPOSAL:

Do not reuse container. Follow provincial instructions for any required cleaning of the container prior to disposal. Make empty container unsuitable for use and dispose in accordance with provincial requirements. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.

Refer to the Material Safety Data Sheet and see your supervisor for information concerning the proper safe handling and use of this product.
