Notification Change

Odours are caused by bacteria. The antibacterial agent controls the bacteria thus eliminating odours.

- ⊆ Scented
- ⊆ Highly absorbent
- ⊆ Minimizes litter box care
- ⊆ Maximizes cleanliness
- ⊆ Readily accepted by cats

DIRECTIONS FOR USE:

1. Place cat litter in litter box to a depth of about 8 cm (3 inches).
2. Shake box to bring larger, trackless granules to the surface.

3. Minimize odours by removing solid waste daily.
4. Add fresh litter as needed to maintain 8 cm depth.

Store in a dry place.

PRECAUTIONS:

Always wash hands thoroughly after preparing or cleaning the litter box. Pregnant and nursing women and people with a suppressed immune system should note that a parasite found in cat feces can cause toxoplasmosis. They should exercise caution and consult a physician before handling a litter box. For further information, consult your local public health office.

DISPOSAL:

Dispose of used or unused product with household garbage.
WARNING: DO NOT FLUSH WASTE OR LITTER DOWN THE TOILET OR ANY OTHER WATER WASTE SYSTEMS. Keep the litter away from food preparation.
