SPRAY DISINFECTANT  
AND AIR DEODORANT

Disinfects and deodorizes surfaces through effective bactericidal and fungicidal activity. Kills most Staph. and Strep. organisms, Pseudomonas aeruginosa. Tubercle bacilli, Salmonella choleraesuis and Trichophyton interdigitate (athlete's foot fungi) on hard surfaces and controls odours. Kills influenza A2 virus on environmental hard surfaces.

DIRECTIONS FOR USE: Use for empty garbage cans, diaper pails, clothes hampers, storage areas, refuse containers, toilet seats, sinks and basins, telephones and animal areas. Also useful for shower stalls and wall tile around bathtubs.

1. Hold can as nearly upright as possible, approximately 15-20 cm. from surface to be sprayed.
2. Spray until covered with fine mist. For disinfection, spray, wait 10 minutes and then wipe. Do not saturate. Inhibits mold and mildew on hard non-porous surfaces for one week.

Use on porcelain and painted surfaces, and all metallic surfaces except copper. Use caution on varnished, shellacked or natural finished woods - do not over spray on polished wood, do not spray directly on clothing or rayon fabrics.

To eliminate cooking, smoke, tobacco, bathroom and other unpleasant odours, spray centre of room 1 to 2 seconds.

PRECAUTIONS: Contents under pressure. Do not place in hot water or near radiators, stoves or other sources of heat. Do not puncture or incinerate container even when empty, or store at temperatures over 50 degrees C. Keep away from open flame or spark.

FIRST AID: If sprayed in eyes or on skin, flush with water. If irritation persists, get medical attention.
