Richmond, B.C. V6X 1W5

**Univar Canada Ltd.**

**DIRECTION FOR USE**

Corn (Field or Sweet)

Post-Emergence Application

Apply a broadcast or overall early post-emergence spray of Bladex® 90DF and Bio-Veg to emerged broad leaf weeds and grasses before they are 2½ - 5 cm in height. Use Bio-Veg at 1.0 L per 100 L of spray solution. Consult Bladex® 90DF label for appropriate spray volume.

Mixing: Fill spray tank half full, and add the desired amount of herbicide and continue to fill the tank. Bio-Veg should be added last and spray mixture should be kept agitated during filling and spraying.

**GROUND APPLICATION OF HERBICIDES FOR CORN (FIELD OR SWEET)**

---

WEEDS	HERBICIDE RATE OF APPLICATION	BIO-VEG RATE OF APPLICATION	REMARKS
Annual Broadleaf Weeds and Annual Grasses	Bladex® 90DF 2.5 Kg/ha	1.0 L per 100 L of Spray Solution	See Bladex® label for further details. Apply when annual grasses are in the 1-2 leaf stage (not over 2.5 cm high); and when annual broadleaved weeds are not more than 2½-5 cm in height. See note †

®Registered trade mark of Shell Canada Limited, Dupont Canada Inc. is the registered user.

† Note: Do not add other herbicides such as 2,4-D to combinations of oil-water emulsions and Bladex® formulations.

Bladex® must be applied when the weeds are small and before the crop is in the four-leaf stage. Later applications will be less effective and will result in crop injury. There is a risk of temporary damage with post-emergence applications when the crop is under stress due to prolonged cold wet growing conditions. Do not apply Bladex® as a post-emergence treatment if these conditions exist or are expected for a seven-day period after application. Do not mix any oils or adjuvants other than Bio-Veg Emulsified Vegetable Oil. If corn is frozen, the crop may encounter severe set back. Bladex® in combination with Bio-Veg as an early post-emergence application in corn is recommended in Western Canada only. Follow all precautions and warnings that appear on Bladex® label.

**CAUTION:**

Keep out of reach of children. Handle and apply only as recommended and at recommended rates. Do not apply Bio-Veg during cool and moist conditions as unacceptable crop injury may occur.

**FIRST AID:**

In case of contact, flush eyes with water. Wash skin thoroughly with soapy water. If swallowed, get medical attention or contact a Poison Control Centre.

**DISPOSAL:**

1. Rinse the emptied container thoroughly and add the rinsings to the spray mixture in the tank. 2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal. 3. Make the empty container unsuitable for further use. 4. Dispose of the container in accordance with provincial requirements. 5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact Provincial Regulatory Agency or the Manufacturer.

**NOTICE TO USER:**

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

**NOTICE TO BUYER:**

Seller's guarantee shall be limited to the terms set out on the label and subject thereto; the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
