20 LITRE

134 DONCASTER AVE.
UNIT #5
THORNHILL, ONT.
L3T 1L3

DIRECTIONS

Before adding CRYSTAL 12, the pH should be tested and adjusted to within 7.2 to 7.6. Add muriatic acid if pH is high. Add soda ash if pH is low.

CRYSTAL 12 should be added daily to maintain 0.6 to 1.0 parts per million available chlorine. The use of a test kit is recommended, as the air temperature and the number of people in the pool will affect the amount of CRYSTAL 12 required.

Under average conditions CRYSTAL 12 should be added daily to pool water according to the following chlorination guide.

POOL CAPACITY (litres)	DAILY CRYSTAL 12 Charge (Litres)
10,000	125 - 250 mL
20,000	325 - 625 mL
50,000	625 mL - 1.25 L
100,000	1.25 L - 2.50 L
250,000	3.25 L - 6.25 L

NOTE:

FIRST APPLICATION SHOULD BE DOUBLE THE INDICATED AMOUNT. Every three weeks, add one week's charge of CRYSTAL 12 in one application to ensure proper control of algae, slime and fungus. Avoid using pool until chlorine residual drops below 2.0 p.p.m. (approximately 24 hrs.)

CAUTION:

KEEP OUT OF THE REACH OF CHILDREN. NEVER MIX WITH OTHER POOL OR HOUSEHOLD CHEMICALS. Do not put CRYSTAL 12 in aluminium or silverware containers. Avoid contact with skin and eyes. May be fatal or harmful if swallowed. Store only in original container tightly closed in a cool, dry place away from heat and sunlight, in an upright position.

FIRST AID TREATMENT:

Contains Sodium Hypochlorite. If splashed in eyes or on skin, flush thoroughly with water. If swallowed give one or two glasses of milk or warm water. Call Physician immediately. Keep patient warm.

FOR SANITARY SWIMMING & WADING POOL WATER:

Add the correct amount of CRYSTAL 12 to the water daily. For wading pools add 5 mL CRYSTAL 12 for every 250 L of water daily. CRYSTAL 12 is recommended for use in all types of pools: vinyl lined, concrete and fibre glass.

NOTICE TO USER:

This control product is to be used only in accordance with the direction on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.
