INDOOR USE: Thoroughly treat cracks, crevices, baseboards, underneath furniture and equipment, around garbage containers, localized areas (spot treatment only) of floors and floor coverings and other places where insects habitate.

OUTDOOR USE: Spray outside surfaces of screens, doors, window frames, foundations, patios, light fixtures and other places where insects may alight, or congregate and enter.

DIRECTIONS: Hold container approximately 30 cm. from surface being sprayed and spray until wet. Thorough applications produce a coating which will vaporize into cracks and crevices for insect control. If reinfestation occurs, repeat application. Provide adequate ventilation after indoor use. KEEP PETS AND CHILDREN AWAY FROM SURFACE UNTIL DRY.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed, inhaled or absorbed through skin. Avoid contact with eyes, skin or clothing. DO NOT USE ON HUMANS, PLANTS, ANIMALS, FOOD STUFF, FOOD UTENSILS, FISHBOWLS OR ANIMAL FEED AREAS. DO NOT USE AS A SPACE SPRAY. DO NOT CONTAMINATE FOODSTUFFS. Do not use in any area where food may be exposed. Do not use in bulk food storage areas. Do not use in cupboards where food or cooking utensils are stored.

In homes or dwellings, remove or cover all exposed food and cooking utensils before spraying. Thoroughly wash all surfaces that might contact food before reuse.

FIRST AID TREATMENT: If swallowed, do not induce vomiting. Call physician or Poison Control Centre immediately. In case of contact with the skin, wash with soap and water. If in eyes, flush with water 15 minutes, get medical attention.

TOXICOLOGICAL INFORMATION: Chlorpyrifos is a cholinesterase inhibitor. Atropine is antidotal.

DISPOSAL: DO NOT REUSE CONTAINER. Wrap and dispose of empty container in household garbage.
