FOR PROFESSIONAL USE ONLY

Nu-Gro IP Inc.
10 Craig Street
Brantford, ON
N3R 7J1

DIRECTIONS FOR USE:

Provides protection from and control of chinch bugs, earwigs and sod webworms (lawn moth larvae). Water after application as noted below.

Insect(s)	Water (cm)
Earwigs, sod webworm	Wash product granules off foliage
Chinch bug	Water lightly before and after application

SPOT APPLICATION ONLY:

Sod webworms: Apply 6 g – 12 g/ m². For spot treatment only in areas of infestation.

Earwigs: Apply 16 g per m². For spot treatment only in areas of infestation. Apply to dry foliage at the recommended rate when insect damage is first observed or when chewed or brown grass indicates insect damage. Distribute product over the entire turf area. Repeat at signs of renewed insect activity.

Chinch bugs: Apply 16 g per m². For spot treatment only in areas of infestation. Water lightly before and after application.

BROADCAST APPLICATION:

White grub suppression: When sampling indicate that white grub larvae are actively feeding in the root zone, apply 720 g /100 m². Do not use in areas where the thatch is more than 3 cm thick. All applications are to be made to dry foliage. Thoroughly water the product into the lawn after treatment with 1.25 to 2.5 cm of water.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Harmful if swallowed. Avoid breathing dust. Avoid contact with skin, eyes and clothing. When applying to lawns/turf, wear coveralls over work clothes and chemical resistant gloves during mixing, loading, application and irrigation and clean-up activities. Wear a dust mask during loading activities. Use goggles or similar protective eyewear when handling or using this product. Wash thoroughly after handling and before eating, drinking, or smoking. May be absorbed through skin. Avoid contamination of feed and foodstuff. As directed, water lawn after application. Do not re-enter treated turf for 24 hours following application and irrigation (except golf courses and sod farms). Warning signs must be posted advising people to keep off treated areas for 24 hours following application and irrigation.

Fish in waters treated with this product may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes.

Highly toxic to bees exposed to direct treatment or to residues on crops. Birds feeding in treated areas may be killed. Apply this product and dispose of empty bag only as specified on this label. Do not reuse empty bag.

FIRST AID: If swallowed, give patient one or two glasses of water and cause vomiting by inserting a finger down the throat; call a physician or poison control centre IMMEDIATELY. **If on skin,** wash thoroughly with soap and water. **If in eyes,** flush with running water for 10 minutes; call a physician. Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Diazinon is a cholinesterase inhibitor. Atropine is antidotal. Use 1 to 2 mg every 15 to 30 minutes if necessary.

DISPOSAL:

1. Thoroughly empty the contents of the container into the application device.
2. Make the empty container unsuitable for further use.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean-up of spills.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the *Pest Control Products Act* to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
