Directions For Use	Section 2	Rinsing & Disposal	Section 4

SECTION - PRECAUTIONS

PRECAUTIONS:

Handling precautions: KEEP OUT OF REACH OF CHILDREN. Avoid contact with skin, eyes or clothing. Protective clothing and Equipment: Handling the concentrate (mixing and loading): Wear long-sleeved shirt, long pants, chemical-resistant gloves, socks and shoes, and protective eye wear (face shield or safety glasses). Rinse gloves before removal. Coveralls or a chemical-resistant apron should also be worn when open pouring from containers greater than 5L. Handling the dilute spray solution (during application or repairing or cleaning equipment): Wear long-sleeved shirt, long pants, chemical-resistant gloves, socks and shoes. Rinse gloves before removal. Gloves are not required during application when applicator is in an enclosed tractor.

Operator use precautions:

- . Wear freshly laundered clothing and clean protective equipment daily.
- . Rinse gloves before removal.
- . Wash hands before eating, drinking, using tobacco or using the toilet.
- . If herbicide penetrates clothing remove immediately; then wash thoroughly and put on clean clothing. Throw away clothing and other absorbent materials that have been drenched or heavily contaminated with this product's concentrate.
- . After using this product, remove clothing and launder separately, and promptly and thoroughly wash hands and exposed skin with soap and water. Follow manufacturer's instructions for cleaning personal protective clothing and equipment. If no such instructions for washables are provided use detergent and hot water. Keep and wash personal protective equipment separate from household laundry.
- . After work, remove all clothing and shower using soap and water.

General Precautions: Do not contaminate streams, lakes or ponds, irrigation water, water used for livestock or domestic purposes. Do not allow spray, mist or vapours to contact vegetables, fruit or ornamentals. Do not spray on fruits, vegetables or ornamental plants. Do not apply Premium 2-Way Turf Herbicide during hot, dry spells. Do not mow for at least 3 days before spraying. Do not spray if rain is forecast. Do not use on newly seeded lawns until they have been mowed twice. Keep in the original container. Do not store near seeds, fertilizers, and insecticides, fungicides, feed or food. GO TO SECTION 2.

## SECTION 2 - DIRECTIONS FOR USE

CROP: ESTABLISHED TURF: Treatment Stage: Treat when weeds are growing actively and temperature is not over 30 deg C in May or early June or late August and early September. DO NOT APPLY BY AIR.

Susceptible Weeds: Dandelion, Plantain, Black Medick (Yellow Clover), Buttercup, Chickweed, Clover, English Daisy, Ground Ivy (Creeping Charlie), Knotweed (Iron Weed), Poison Ivy, Ragweed, Shepherd's Purse, Bedstraw, Heal-All, Devil's Paint Brush. For Knotweed control apply in May or June only. For control of Creeping Charlie treat in June and September for two seasons for extensive infestations. NOTE: On Bentgrass apply only as a spot treatment. Bentgrass around the weed may be injured or killed. Rates to Use: 60 mL in 10 litres of water per 100 square m. For large areas use 5 litres in 300 litres of water/per hectare.

Transfer System: For containers larger than 20 L, use a transfer system that avoids open pouring when transferring the liquid concentrate from such containers into the spray tank.

Maximum Application Frequency to Turf: For good turf/lawn management, normally two applications per year per treatment site are adequate. This does not include spot treatments.

Re-Entry Intervals for Turf: Do not allow people (other than applicators) or pets on treatment area during application. Do not enter treated areas until spray has thoroughly dried. GO TO SECTION 3.

## SECTION 3 - FIRST AID

1. In case of poisoning, call a physician or poison control centre immediately.
2. If on skin, remove contaminated clothing and wash skin thoroughly with soap and water.
3. If in eyes, flush with water immediately and continue for 5-10 minutes. Obtain medical attention.
4. If swallowed, induce vomiting. Syrup of Ipecac is recommended. Take patient to nearest hospital or doctor's office. Take the pesticide label with you. GO TO SECTION 4.

## SECTION 4 - RINSING & DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings

to the spray mixture in the tank.

2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
