NEW! One handed measured dose with no mess.

Unique measuring device is permanently attached to bottle.

Gentle finger tip control for easy measuring of exact amount of pesticide required.

Read directions and precautions on label.

1. Remove red cap.
2. Squeeze very gently to fill measuring cup to desired level - squeeze gently.
3. Pour measured amount directly into your sprayer. Bottle can

be turned upside down safety - only the liquid in the measuring cup will pour out.

DIRECTIONS:

Wet foliage thoroughly using a trombone or compressed air sprayer.

INSECTS	HOST	RATE	METHOD
Tent Caterpillar, Canker Worm, Rose Chafer, Rose Leaf Beetle	Ornamental Trees	120 mL per litre of water	Avoid contamination of edible crops. Spray to run-off.
Flies and Mosquitoes	Picnic areas, Back yards, Patios	120 mL per litre of water	Spray lawn and foliage of shrubs where insects light with a light even covering.

PRECAUTIONS: KEEP OUT OF THE REACH OF CHILDREN. Avoid inhaling spray mist. Avoid contact with skin, eyes, and clothing. Avoid contaminating feed or food. Wash after handling or using. Avoid contamination of ponds, lakes, streams or water used for domestic purposes. Do not spray trees during bloom. Dispose empty container in the garbage.

DANGER: This product contains petroleum distillates. Do not ingest. If ingested, do not induce vomiting. Obtain medical attention immediately.
