BUG BUSTER PY9 is engineered for highly effective use in automatic aerosol dispensers. The aerosol dispenser automatically releases a metered dose of 25-27.5 mg of insecticide every 7.5

minutes, killing flies, mosquitoes, gnats and certain other small flying insects. BUG BUSTER PY9 is designed for use in hospitals, restaurants, food processing plants, food service establishments, stables, barns and poultry houses while they are in operation. Also for use in meat processing and meat packaging plants, when not in operation. Each can contains enough product to protect an area of at least 170 m³ of free flow air space for up to 30 days.

DIRECTIONS: Remove protective cap from top of can and insert can into special automatic dispenser. Place dispenser 2-3 metres above floor at a point where air flow will carry insecticide throughout the area. Do not install directly over food or feed packaging surfaces. Stables, barns, poultry houses: Hang in any area where flying insects present a problem. Helps eliminate the need for washing down animals with insecticides. Keeps livestock and other farm animals protected. Do not use where milk is exposed.

In hospitals, do not use in nurseries or rooms where infants, ill or aged persons are confined. In meat packing plants, spray only when plant is not in operation. No exposed meat products, ingredients or packaging materials may be left in the room. Cover food handling equipment.

Any treated surface that may contact meat products should be washed and rinsed thoroughly with potable water after spraying and before reuse for meat processing.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid skin contact and inhalation of spray mist. Wash after using. Contents toxic to fish and birds. Do not contaminate food, feed or water. Do not install directly over polished plastic or varnished surfaces. Contents under pressure. Container may explode if heated. Do not expose to temperatures over 50°C. Do not puncture or incinerate. Do not use in the presence of open flame or spark.

FIRST AID: In case of contact with eyes or skin, flush with water. If irritation persists, seek medical attention. If accidentally swallowed, seek medical attention at once.

DISPOSAL: Dispose of empty container with regular garbage.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER: Seller's guarantee shall be limited to the terms set out on the label and, subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.
