DIRECTIONS FOR USE

APPLICATION:

1738 is used to control algae, bacteria, and slime in recirculating commercial and industrial water cooling towers. It is particularly effective against sulphate reducing bacteria.

PROCEDURE:

Prior to the use of 1738 in cooling towers, systems should be cleaned to remove algal growth, microbiological slime and other deposits. Then make an initial feed of 555 mL per 1000 litres of water content of the system until control is achieved. Maintenance feed 55 to 140 mL per 1000 litres. Slug additions should be made in the sump of water cooling towers. The

frequency of addition depends upon the relative amount of bleedoff and the severity of the microbiological problem.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER

Seller's guarantee shall be limited to the terms set out on the label and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the products on that condition.

BATCH NO.

PRECAUTIONARY STATEMENTS

Eye and skin irritant. Avoid ingestion, inhalation and contact with skin, eyes and clothing. Where there is a risk of contact, wear protective clothing. Store away from:

- (a) Oxidizing materials
- (b) Heat and sources of ignition
- (c) Food and food containers.

Avoid contact with metals.

FIRST AID:

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or, if these are not available, drink large quantities of water.

Call Poison Control Centre near you or a physician immediately.

TOXICOLOGICAL INFORMATION:

The concentrated solutions are irritants. They may also induce allergic reaction or sensitization to some individuals.

STORAGE AND DISPOSAL PROHIBITIONS

Keep this product in the original container when not in use. Container must be stored and transported in an upright position to prevent spilling the contents through the vent. Do not contaminate water, food, or feed by storage or disposal. Open

dumping is prohibited. If plastic, do not reuse empty container.

DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the Provincial Regulatory Agency or the Manufacturer.
