DIRECTIONS: "Use in portable sprayers or fogging machines".
SURFACE TREATMENT: Treat surface areas at the rate of 6.7
L/100 m². Apply a coarse spray, moving spray to prevent
overwetting. FLYING INSECTS: Close doors and windows.

Using a portable sprayer-direct spray mist upwards to all parts of the room, especially windows and other light sources. Also direct spray-mist into areas where insects are present. Start at the farthest corner of room and finish at doorway. For fogging machines, set sprayer to distribute 200 ml/100 m² and apply at rate of 170 ml per minute. Whenever possible, keep doors and windows closed for 15-20 minutes after each treatment. Do not remain in treated areas. Ventilate treated areas thoroughly for at least 30 minutes before re-entry.

CRAWLING INSECTS: spray hiding places such as baseboards, moist areas, opening around sinks, drains and pipes, behind cabinets and storage areas. Spray ant trails around door sills, window frame, or in ant nests. Insects must be hit to be killed. Apply at a rate of 6.7 l/100 m². Apply a coarse spray moving the spray rapidly to prevent overwetting.

BEDBUGS: Spray mattress, particularly around seams and tufts. Take bed apart, spray all joints.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Flammable liquid. This product contains petroleum distillates. Do not store, pour or use in presence of flame, spark or any ignition source. Store in a cool and well ventilated area away from all incompatible materials. Harmful if ingested, inhaled or absorbed through the skin. May irritate eyes and skin. Do not ingest. Do not inhale. Avoid contact with eyes, skin and clothes. Do not contaminate feed, water or food stuff. Wash thoroughly with soap and water after handling and before eating. In food processing plants and food service establishments apply only when plant is not in operation. In food processing plants or food premises avoid contamination of food, water and all surfaces in contact with food. Prior to treatment remove all food and cover all food processing surfaces. Before resuming the operation rinse thoroughly with potable water: remove fish bowls, bird cages and pets before treatment. Do not spray on plastic, painted or varnished surfaces. Do not spray closer than 90 cm from material. **PPE:** Wear a mask or a respirator when applying spray mist. Wear chemical resistant gloves and splash goggles when spraying.

FIRST AID: Product contains petroleum distillates. If swallowed, DO NOT INDUCE VOMITING. Have conscious person drink several glasses of water or milk. GET MEDICAL ATTENTION OR CONTACT A POISON CONTROL CENTER IMMEDIATELY. Take container, label or product name and Pest Control Product registration number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: This product contains petroleum distillates. Treat symptomatically.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DISPOSAL:

1. Triple or pressure rinse the empty container. Add the rinsings to the spray mixture in the tank.
2. Follow provincial instruction for any required additional cleaning of the container prior to its disposal.
3. Make the empty container unsuitable for further use.
4. Dispose of the container in accordance with provincial requirements.
5. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of a spill, and for clean up of spills.
