Bis(tri-n-butyltin)oxide.....0.70%  
5-Chloro-2(2',4'-dichlorophenoxy)phenol.....0.80%

READ THE LABEL BEFORE USING

PRECAUTIONS

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. May be absorbed through the skin. Causes skin irritation. Avoid contact with eyes, skin, or clothing.

NOTICE TO USER

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

DIRECTIONS

For manufacturing use in rendering textiles resistant to the growth of bacteria. It inhibits the development of body odors on treated fabrics. UltraFresh's bacteriostatic activity will last through at least 50 conventional launderings. In all cases below an application range of 1.25% to 2.0%, based on the weight of the goods, is quoted. The actual amount used will depend on the degree of biological activity and the durability required on a specific material. This level can be readily determined by means of a trial run.

FABRIC - UltraFresh U DD Nonionic can be applied to fabrics from the pad-bath, together with a resin mix if so desired. The pad-bath is prepared so that, allowing for the expected pick-up, a level of 1.25% to 2.0% UltraFresh U DD Nonionic, based on the weight of the goods, is applied to the fabric. If the Nonionic nature of this product creates a problem with a particular resin,

the anionic version of UltraFresh U DD can be used instead.

FELT - With felt production, the UltraFresh U DD Nonionic can be sprayed in the picker. The level of UltraFresh U DD Nonionic in the spray solution depends on the moisture level that is added to the felt, and is adjusted to give a final level of 1.25% to 2.0% on the weight of the felt.

#### TOXICOLOGICAL INFORMATION

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution or, if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. (Never give anything by mouth to an unconscious person).

#### DISPOSAL

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills, contact the regional office of Environment Canada.
5. For small spills: Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4 ABOVE.
