Phone: (418) 387-5910 Fax: (418) 387-4326

Warning, contains the allergen sulfites.

Update

USE DIRECTIONS

To prevent the establishment of weeds on industrial sites such as utility substations, pipe-lines and tank farms.

Site preparation:

For best results, remove all remnants of existing vegetation or unwanted plant growth. Rake and smooth the soil before installing the fabric.

Installation of the geotextile fabric:

Simply unroll the material to the desired length and cut using scissors. When overlapping is necessary, we suggest a 10-15 cm (4 to 6 inch) overlap. It is recommended to clean the TEX-R fabric thoroughly before covering it with any material. The glazed surface of the fabric must be upward and should not be installed facing the ground.

Covering the geotextile fabric:

Cover Tex-R geotextile fabric completely with a 2.5-5 cm (1-2 inch) layer of "sterile" material to protect it against the sun.

PRECAUTIONS:

Wear gloves when handling fabric. Avoid contact with skin and eyes. Keep out of any body of water; toxic to fish.

FIRST AID:

Skin contact: Wash with plenty of soap and water.

Eye contact: Hold eyelids open and flush with water until no evidence of Chemical remains (at least 15 minutes). Get medical attention.

In case of accidental poisoning, get medical attention or contact a poison control centre.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: Treat symptomatically.

DISPOSAL:

1. Make the empty container unsuitable for further use.
2. Dispose of the container in accordance with provincial requirements.
3. For information on the disposal of unused, unwanted product, contact the manufacturer or the provincial regulatory agency. Contact the manufacturer and the provincial regulatory agency in case of spill, and for clean-up of spills.

NOTICE TO USER:

This control product is to be used only in accordance with the directions on this label. It is an offence under the Pest Control Products Act to use a control product under unsafe conditions.

NOTICE TO BUYER:

Seller's guarantee shall be limited to the terms set out on the label, and subject thereto, the buyer assumes the risk to persons or property arising from the use or handling of this product and accepts the product on that condition.

This label transcript service is offered by the Pest Management Regulatory Agency to provide efficient searching for label information. This service and this information do not replace the official hard-copy label. The PMRA does not provide any guarantee or assurance that the information obtained through this service is accurate, current or correct, and is therefore not liable for any loss resulting, directly or indirectly, from reliance upon this service.
