READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL  
CAUTIONS AND DIRECTIONS.

KEEP PRODUCT IN ORIGINAL CONTAINER. DO NOT PUT INTO FOOD OR  
DRINK CONTAINERS

Pruning Seal is ready to use with its own built-in applicator as  
a fast, effective, dressing designed to aid in healing of pruning  
cuts, grafts, abrasions and wounds on woody plants and trees. It  
provides a protective coating that prevents the entry of  
moisture, wood rotting fungi and wood boring insects into the  
exposed cut and prevents excessive sap flow.

DIRECTIONS

ROSES AND ORNAMENTAL SHRUBS, FRUIT AND SHADE TREES: TREAT ALL  
PRUNING CUTS OVER 2 CM IN DIAMETER, CUT DECAYED OR DEAD LIMBS OR  
TWIGS TO LIVING WOOD AND TREAT. Apply from can, using the

built-in applicator. Apply immediately after pruning cuts are made or when grafting is complete to prevent excessive sap flow or moisture entry.

WOUNDS AND ABRASIONS: Trim as required and treat. Replace cap tightly when finished to prevent drying out. Spills can be cleaned up with turpentine or mineral spirits (substitute for turpentine).

CAUTION: CONTAINS PETROLEUM NAPHTHA. KEEP AWAY FROM HEAT OR OPEN FLAME USE ONLY IN WELL VENTILATED AREAS.

CAUTION: May be harmful if swallowed. Avoid contact with eyes and skin. In case of contact flush eyes with fresh water for at least 15 minutes, for skin, wash with white mineral oil, wipe off excess and then wash with soap and water. Get medical attention if irritation persists.

NOTICE: Seller's guarantee shall be limited to the terms set out on the label and subject thereto the buyer assumes the risk to persons and property arising from the use or handling of this product and accepts the product on that condition.
