DIRECTIONS FOR USE: To be used only in the manufacture of a pesticide which is registered under the PEST CONTROL PRODUCTS ACT.

PRECAUTIONS: PREVENT ACCESS BY UNAUTHORIZED PERSONNEL. May be fatal if swallowed, absorbed through the skin or inhaled. May irritate eyes. Do not get in eyes, on skin, or on clothing. Do not inhale powder. Wear protective clothing including coveralls/apron, chemical resistant gloves, dust respirator, mask/face shield, eye goggles and boots when handling, mixing or loading this product. Wash arms and face with soap and water after mixing or handling product and before eating, drinking, or smoking. Wash contaminated clothing with soap and water and separate from other laundry before reuse.

Repeated exposure to small amounts of product can produce accumulative toxicity. Persons at risk should have their prothrombin times checked periodically.

ENVIRONMENTAL HAZARDS: This product is toxic to fish and wildlife. Keep out of lakes, streams or ponds. Do not discharge to surface water or waste water systems.

FIRST AID:

IF SWALLOWED: Call a poison control centre or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control centre or doctor. Do not give anything by mouth to an unconscious person.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15–20 minutes. Call a poison control centre or doctor for treatment advice.

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. Call a poison control centre or doctor for further treatment advice.

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15–20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control centre or doctor for treatment advice.

Take container, label or product name and Pest Control Product Registration Number with you when seeking medical attention.

TOXICOLOGICAL INFORMATION: If swallowed, absorbed or inhaled by humans or domestic animals, the administration of Vitamin K₁ in the form of intramuscular or subcutaneous injections, or by oral ingestion, as indicated in bishydroxycoumarin overdoses, are suggested remedial treatments for anticoagulant poisoning. The severity of the case measured by establishing prolonged prothrombin times (P.T.) will determine appropriate therapy. Monitoring P.T. will indicate the necessity of repeated treatments.

STORAGE: Do not contaminate water, food or feed by storage or disposal of this product.

Store in the original packaging in a well ventilated room. Store in a cool, dry place away from food, feed or other pesticides. Keep out of reach of unauthorized persons. Protect from sun and humidity. Do not store near heat or open flame.

DECONTAMINATION AND DISPOSAL: Canadian formulators using this product should dispose of unwanted active ingredient and containers in accordance with municipal or provincial regulations. For additional details and information on the cleanup of spills, contact the provincial regulatory agency or the manufacturer.

NOTICE TO USER: This pest control product is to be used only in accordance with the directions on the label. It is an offence under the *Pest Control Products Act* to use this product in a way that is inconsistent with the directions on the label. The user assumes the risk to persons or property that arises from any such use of this product.
