HOW TO USE: Purina Dairy Spray Special is a specially prepared, ready-to-use insecticide. Suitable for use in any convention hand, microsol or automatic spray equipment. Dairy Spray Special reduces the populations of such annoying pests as stable flies, horn flies, house flies, when applied to dairy or beef cattle.

DIRECTION: Dairy and Beef Cattle: Spray flanks, legs, brisket, head and neck on each side of the animal, beginning at the tail

and moving forward. Apply daily, after milking, sufficient to dampen hair. DO NOT apply in excess of 60 mL per animal per day.

NOTICE TO USER: This control product is to be used only in accordance with the directions on this label. It is an offense under the Pest Control Products Act to use a control product under unsafe conditions.

TAKE TIME  
OBSERVE LABEL  
DIRECTIONS

WARNING: Keep out of reach of children. Keep in original container during storage. Destroy empty container. Handle and apply only as recommended and at recommended rates. Do not contaminate feed or foodstuffs. Do not store with feed or foodstuffs. Do not contaminate streams, lakes, ponds, irrigation water, water used by livestock or water used for domestic purposes. Do not contaminate milk or milking utensils. Keep product away from fires, open flame, lighted electric bulbs and other sources of heat.

CAUTION: Harmful if swallowed, inhaled or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating or smoking. If swallowed, induce vomiting immediately and get medical attention. Atropine is antidotal.
