DIRECTIONS: To disinfect hard inanimate surfaces: in hospital operating rooms and patient areas, walls, floors, table tops, add 16 ml COSAN #450 per litre of water. Apply with mop, sponge or cloth. Wet thoroughly. Allow to soak for 10 minutes. Allow to air dry. In food processing plants and food service areas rinse

with potable water after disinfecting.

To control mildew or molds, on precleaned hard non-porous surfaces, add 16 ml COSAN #450 per litre of water. Apply solution with cloth, mop or sponge. Allow to air dry. Prepare fresh solution for each use. Repeat application weekly or when mildew reappears.

To sanitize previously cleaned and rinsed non-porous food contact surfaces, flush the surfaces with a solution of 200 ppm COSAN #450. Allow at least 60 seconds contact, then air dry. To sanitize drinking glasses and eating utensils immerse completely in 200 ppm COSAN #450 solution for at least 60 seconds. Remove and air dry. Prepare fresh solution daily or when solution becomes cloudy. To prepare 200 ppm solution, add 5 mL COSAN #450 per 1 litre of water.

IMPORTANT

Do not mix COSAN #450 with soap or anionic solutions.

CAUTION: Keep out of reach of children. Concentrate is corrosive and could cause severe eye and skin damage. Protect eyes, skin and clothes when handling concentrate. Harmful if swallowed. Avoid contamination of food. Rinse empty container with water before discarding.

FIRST AID: In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call physician.

A table of dilutions for complete kill against specific bacterial organisms usually found in hospitals and food processing plants is available from your supplier.

WARNING

DISPOSAL OF EMPTY CONTAINERS

1. Rinse the emptied container thoroughly and add the rinsings to treatment site.
2. Follow provincial instructions for any required additional cleaning of the container prior to its disposal or reconditioning.
3. Dispose of the container in accordance with provincial requirements.
4. For information on the disposal of unused, unwanted product and the cleanup of spills contact the regional office of Conservation and Protection Service, Environment Canada.
5. For small spills. Recover free liquid. Soak up residue with solids absorbent. DO NOT FLUSH INTO SURFACE STREAMS. INFORM ENVIRONMENT CANADA AS IN #4.
