200 g(7.0 oz.)

MANUFACTURED BY/FABRIQUE PAR:
HEDLEY PACIFIC VENTURES LTD.
VANCOUVER, B.C., V6C 2V6

INSECOLO is designed to take advantage of mineral deposits of

diatoms which have been found useful in reducing crawling insect pest population in and around the private home or apartment. The patented manufacturing process of this product contains two food-grade additives of which one attracts the crawling insects while the other is a digestive ingredient. When applied directly, crawling insects are usually killed within 48 hours from cutting action. This fine powder will not stain.

DIRECTIONS: INSECOLO will remain effective in controlling cockroaches and earwigs as long as product is present. Direct application to insect is preferred. Apply by lightly coating or dusting area where insect pests are found or hide such as cracks & crevices, under cabinets, etc. Use as powder indoors or out. For best results, use in areas where dust application cannot be affected by heavy rains or high winds. For longer control outdoors, use as a wettable powder with water around foundations, shrubs, flower beds, gardens, etc.

DOSAGE: DRY - Lightly coat desired area. Suggested rate of 50 g of INSECOLO per 10 sq. meters. (1 oz. INSECOLO per 65 sq.ft.) WET - Apply to point of wetness 75 g of INSECOLO in 1 L water per 10 sq. meters. (2 1/2 oz. of INSECOLO in 1 qt. water per 65 sq.ft.)

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. Avoid breathing dust. Do not use as a space spray. Avoid contact with eyes.

FIRST AID: If in eyes, rinse with cold water. If irritation persists, seek medical attention.

DISPOSAL: Dispose of empty container in household garbage. Do not reuse container.

HOW IT WORKS

DIATOMACEOUS EARTH(diatoms, sharp microscopic particles). Insects are killed from internal and external cutting action that also causes dehydration of insect pests. TWO FOOD-GRADE ADDITIVES. One ingredient attracts insect pests to eat the powder(internal action). Kiln-Baked together into a patented powder from which can be used both dry or wet!
