2,4-D Amine, 1.45g/L

DOMESTIC

READ THE LABEL BEFORE USING

900 mL

WILSON LABORATORIES
DUNDAS, ONTARIO
L9H 3H3

DIRECTIONS: Use to control unwanted weeds and grass on patios, paths, parking areas or where bare soil is required.

WARNING: Patio Weed and Grass Killer is both absorbed by the foliage and taken up by the roots of plants. DO NOT apply product where it may leach through the soil and be taken up by the roots of desirable plants.

Apply with hand trigger sprayer attached. Adjust nozzle to get a coarse spray pattern. Spray to wet foliage thoroughly. (Use 300 mL per m² for light sandy soil or 400 mL per m² for heavy soil). Hold sprayer close to weed (30 cm to 60 cm) and spray to

cover foliage in centre of weed. One application will kill most weeds and grasses. Repeat application in 2 to 3 weeks if necessary.

DO NOT apply to desirable vegetation such as lawns, shrubs, trees or crops or to soil required for planting within two years.

DO NOT apply over roots of trees, shrubs, or woody ornamental plants or within 30 cm of lawn grasses. Avoid spray drift onto garden plants. NOTE: The roots of trees may extend a radius of approximately 1 ½ times the height of the tree.

PRECAUTIONS: KEEP OUT OF REACH OF CHILDREN. May irritate eyes, nose, throat, and skin. Avoid contact with eyes, skin and clothing. Do not breathe spray mist. Wash thoroughly after use. Avoid contamination of feed or food.

FIRST AID: If on skin, wash thoroughly. If in eyes, flush with water for 15 minutes and get medical attention. If swallowed, give patient 1 or 2 glasses of water and induce vomiting. Get medical attention or call a poison control centre.

DISPOSAL: Wrap container in newspaper and dispose with regular household garbage. Do not re-use empty container.
